Icera Canto Toilet →

This one-piece transitional toilet from Icera features an elongated chair-height bowl with a soft-close lid and super-quiet flush mechanism. Using just 1.28 gallons per flush, the WaterSense-compliant unit sports an oversize 2-inch trapway to virtually eliminate clogging. Precision rim jets and a MicroGlaze non-staining, anti-microbial finish make for easy maintenance. Primary finishes include white and balsa, with several alternate trim finishes.

For more information, No. 800 on reader service card.

↑ **Lotus Solid Surface Bath**

Clarke Architectural used its proprietary Omoxo solid surface formulation to create this freestanding tub. Omoxo is produced using a liquid acrylic resin and other high-grade composites, ensuring high durability. The unique shape reflects elegance and a modern aesthetic, with feet resembling a pedestal-style bath.

For more information, No. 801 on reader service card.

← **Staffordshire 15 Wall-Mount Bath Faucet**

The latest addition to Victoria+Albert's Staffordshire line of traditional-style bath faucets features a sleek, metal handheld shower that can be wall-mounted to create more space in smaller bathrooms. The handheld shower attachment may be right- or left-facing. Vintage-styled handles and spouts coordinate with any of the company's freestanding traditional bathtubs. Available finishes include polished chrome, brushed nickel, and polished nickel.

For more information, No. 802 on reader service card.

← **Dream Glass Collection Cheetah Knobs**

Atlas Homewares has added a cheetah print to its Dream Glass Collection of decorative hardware knobs, suitable for any kitchen or bath. Cheetah knobs are available in two formats: round with a matte black center, or square accented with diamante fittings. Both knobs measure 1½ inches in width.

For more information, No. 803 on reader service card.

↑ **Du Verre Argyle Collection**

Each of the knobs and pulls in this hardware collection from Du Verre sports a traditional argyle pattern with small diamond shapes. Made from environmentally-friendly recycled aluminum, the Argyle Collection is offered in three finishes; knobs and pulls are available in four different sizes.
