6 Blanco 3-in-1 strainers

Blanco has unveiled its innovative 3-in-1 steel strainers. The Blanco 3-in-1 offers a deep strainer basket with engineered holes on the sides and bottom that keeps water flowing while it collects waste. An exaggerated lip makes it easy to pull up and empty without coming in contact with sink waste. And its quality stainless, dishwasher-safe design offers effortless maintainance. A one-touch, sure-seal lid securely lets homeowners fill and hold water in the sink without the inconvenience of turning, twisting or leaking.

7 Porcher London Farm Sinks

The new Porcher London Farm Sinks Collection is available in clay or stainless steel. The classic fine fire clay sinks are a great choice for traditional and transitional settings, while the new stainless steel models, picks up on the continuing popularity of stainless for culinary fixtures and appliances. All the farm sinks feature a 10-in. deep single bowl, with a full apron on all four sides. Each model is available in 24-, 30-, or 36-in. widths. A decorative bottom rack is an option with the stainless steel models.

8 Lenova Bamboo Farm Sink

Lenova's new bamboo kitchen sink features an apron front design with a double-bowl layout. A low-rise divider accommodates larger items such as cookie sheets and big skilletes with long handles. This design gives the functionality of two sinks in one. Using a 13-step process, each sink is crafted from fully matured Moso bamboo, chosen for its density, color clarity, and sustainability.

9 Brizo Talo SmartTouch

The Talo faucet from Brizo contains several intuitive features, including a two-button/four-function pull-down wand. The patented wand puts spray, stream, volume control and pause functions at the user's fingertips, making kitchen tasks easier. Talo also features the Brizo brand's Magne-Dock magnetic docking technology to securely lock the wand into the faucet spout.

7 SoftPlan 2012

SoftPlan Systems has released SoftPlan 2012, which incorporates a modern multi-document ribbon based interface that makes using SoftPlan easier than ever. SoftPlan's 3D rendering engine is brand new, multi-core, and seamless to navigate. SoftPlan now allows nearly all tasks to be completed on either the 2D drawing or the 3D model. Building data from within SoftPlan is now integrated directly with the REScheck Building Energy Codes Program. SoftPlan 2012 includes enhanced libraries consisting of more than 33,000 construction details, textures and high-quality 3D symbols.

8 CertainTeed CertaWrap

CertainTeed is launching its inaugural housewrap product, CertaWrap Weather Resistant Barrier, along with a full line of accessories. CertaWrap acts as the primary line of defense against the elements during construction and a secondary water barrier after the cladding is installed. CertaWrap also provides superior water holdout, moisture vapor transmission, tear strength and surfactant resistance. In addition, the material itself inhibits the growth of mold and will not disintegrate over time.

10 Novellini Glamm

Glamm, Novellini's newest multi-functional shower panel, has a sleek European design. Available in white, white oak and teak finishes, the panels may be used in a wide array of configurations to suit any bathroom floor plan. The Glamm features an oversized showerhead that creates a soothing rain shower effect, as well as a convenient hand shower. Adjustable vertical hydro-massage jets produce a customizable shower experience, while a thermostatic mixer perfectly maintains a pre-selected water temperature.
