**1 ]** When efficient use of space is a priority, **MTI Baths'** ultra-compact Wall-Mounted Vanity Sinks, made from the company's Engineered Solid Stone, save space by integrating sink, vanity, and built-in storage. Two sizes are available, with space on the vanity top for faucet mounting. Bowl placement may be specified right or left, or to allow more surface area for wall-mounted faucets. [mtibaths.com](http://mtibaths.com) **For more information, circle No. 810 on reader service card**

**2 ]** Inspired by Greek and Roman architectural elements and the work of 17th century British architect Inigo Jones, **Kallista's** Inigo Collection features sculptural hubs and finials for traditional styling rich in detail. The collection includes faucets, vanities, lighting, and accessories in four finishes. [kallista.com](http://kallista.com) **No. 811**

**3 ]** With the Paiova 5 by EOOS, **Duravit** has streamlined this popular line to fit any bathroom. The tub is no longer limited to corner spaces and is available in two styles: a sculptural design that expands into the room or a built-in version for customized installation. With its Bluetooth and LED technology, Paiova 5 offers a modern bathing experience with customizable details that include variations in rim size for different shelving possibilities. [duravit.us](http://duravit.us) **No. 812**

**4 ]** Designed by Antonio Pascale, **Galassia's** Ergo Collection provides a modern yet organic look with distinctly natural forms in a bath collection that includes sinks, toilets, furniture, mirrors, and coordinating accessories. Shown here is the Ergo Structure vanity made of solid iroko (African teak) with a white Ergo 7102 rimless ceramic top with integrated sink. [ceramicagalassia.com](http://ceramicagalassia.com) **No. 813**

**5 ]** Europeans have long believed in the virtues of cleansing the body using the contrast of warmth (steam) and cold (water). **Vola's** simple, sculptural collection of in-shower spa products brings that experience to any bathroom. The 080W waterfall shower and the 070W Kneipp hose, for targeted massage and alternating temperature treatments, are intended to be used cold, but can be combined with standard shower mixers for hot/cold use. Available in several finishes; imported by Hastings Tile & Bath. [hastingsstilebath.com](http://hastingsstilebath.com) **No. 814**

**6 ]** Sink stand meets towel warmer in the Heated Washstand from **Sterlingham Co.** Crafted from solid brass, the stand's patented low-energy design consumes about the same amount of electricity as a light bulb. Available in several configurations, finishes, and foot styles, including a wall-mount four leg washstand with three warmer rails (shown). Custom sizes also available.
