↑ Geberit Monolith

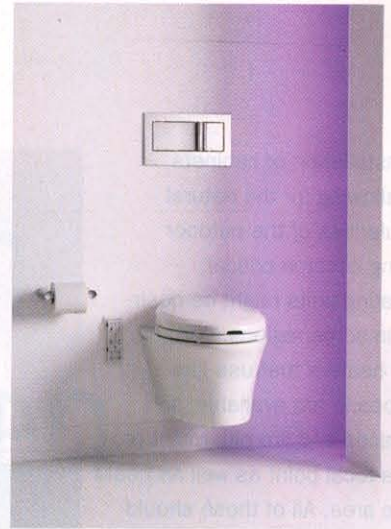

The Geberit Monolith Tank and Carrier System for floor-mount toilets is designed to give the toilet tank a sharp, modern look. A dual-flush mechanism uses 1.6 and 0.8 gpf. The system is secured to the wall and can be used in almost any remodel without needing to make structural changes. It is made of materials such as safety glass and metal and is available in black or white.

For more information, circle No. 801 on reader service card.

→ Kohler Wall-Hung Toilet

The Kohler Veil is a one-piece, wall-hung residential toilet with an elongated bowl that saves 12 inches of bathroom space compared to Kohler's longest floor-mount toilets. It has a concealed tank and mounting hardware to give it a sleek, seamless look for the modern bath. This high-efficiency toilet has dual-flush technology and uses 1.6 and 0.8 gpf. A wall-mounted actuator plate can be removed for access to the inner-tank components.

For more information, circle No. 800 on reader service card.

← Victoria + Albert Bath Faucets

Victoria + Albert's new Staffordshire Collection includes traditional style bath faucets available in either wall-mounted or deck-mounted models. They feature vintage-style handles and a classically designed spout. The deck-mounted faucet has a fixed height of 9-3/4 inches for vessel-style sinks, while the wall-mounted faucet provides more counter space. Both styles are available in Chrome and Brushed Nickel.

For more information, circle No. 802 on reader service card.

← The Edge Showerhead

Speakman's new The Edge showerhead features a bold, modernized square design fit for a modern bathroom. The Anystream 360-degree spray technology provides numerous different spray patterns from five adjustable jets and 12 pulsating center jets. Its plunger system resists hard-water buildup and sediment, making it easier to clean and maintain. It is available in Polished Chrome and Brushed Nickel finishes.

For more information, circle No. 804 on reader service card.

↑ Kichler LED Tape Lighting

Kichler's TaskWork LED Tape Lighting offers an energy-efficient solution for brightness in rooms and even outdoor spaces with cabinets, walls, and flooring. The lights are available in a range of Kelvin (K) color temperature options to fit any space: 2,700 K warm, white; 3,000 K pure, white; and 4,000 K cool, white. The lights have a CRI of 80 and an average lifespan of 20 years.
