Bath Products

1

1 Diamond Spas Piscina Tub

This drop-in tub from Diamond Spas is designed in French Country style. The tub measures 42 in. x 72 in. x 24 in., giving users plenty of room to relax. The exterior shell is made of 90 to 95 percent recycled copper.

2 SFA Saniflo Sanibest Pro Upflush System

The next generation of this upflush grinder system is the first 1-horsepower device of its kind. The hardened steel grinder blade can take care of baby wipes, dental floss and other sanitary products, unlike other systems; once dissolved, refuse is pushed down the 3/4-inch discharge line. Effluent can be pumped 25 feet vertically or nearly 150 feet horizontally. The extremely quiet device allows easy access to internal components.

3 BainUltra Essencia Rectangular

This addition to the Essencia line of therapeutic baths sports two seats doubling as footrests for a stretched-out, relaxed, or seated position. Matching armrests run the length of the freestanding tub, and a built-in, inverted V backrest massages the torso. Two rows of air jets and a Hydro-thermo massager complete the relaxing experience. Measuring 68 in. x 38 in. x 26 in., it fits in rooms with as little as 90 square feet of space.

4 Kohler Oil-Rubbed Bronze Finish

With the growing popularity of Old World craftsmanship, Kohler has added an Oil-Rubbed Bronze finish to its line of colors and textures. Hints of copper are found throughout the design for added depth and texture. The new finish will be available on more than 400 different products, including faucets, showerheads, body sprays, towel bars, cabinetry hardware and kitchen sink accessories.

5

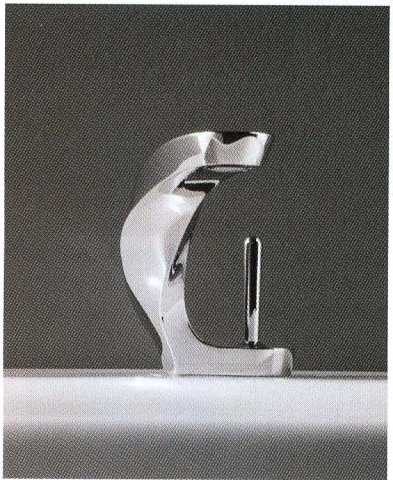

5 DewStop Fan Switch

Reduce mold and mildew in the bathroom or anywhere else with this moisture-sensing fan switch. The Condensation Sentry sensor detects condensation on nearby surfaces and automatically activates the ceiling fan, airing out the room until it reaches an acceptable level. At that point, the fan will shut itself off. Users can also turn the fan on and off manually as needed. The device can be retrofitted to any model of ceiling fan.

6 Noble Company Freestyle Linear Drain

Compatible with large format tile, the Freestyle Linear Drain features a clamping collar for a watertight connection with a bonded waterproofing membrane. Drains are available in six different lengths and four brushed stainless steel strainer styles. The system features a high capacity (45 GPM) drain, making it suitable for barrier-free and ADA applications.

7 Mr. Steam Residential Steambath System

An intelligent microprocessor platform drives this series of steam generators. Industrial-strength heating elements can clean rooms up to 1,275 cubic feet; upon completion, the Auto-Flush feature releases the used steam to set up for the next project. The power range spans from 5 to 30 kilowatts. Thanks to the processor, users can attach plug-and-play spa accessories related to sound, aroma or color therapy.

8 Graff Ametis Faucets

These new faucets from Graff feature a fluid, contoured design with a futuristic feel. The collection includes faucets and showerheads. Each model sports an LED ring that indicates changes in water temperature. The faucets themselves are available in chrome, white or powder-coated matte black.
