Tile Redi Shower Bases →

These prepitched, tileable shower pans from American Standard are simple to install and can be tiled the same day, eliminating construction delays. Tile or stone can be applied directly to the base surface. Styles include Redi Base with round drain cover; Redi Free with barrier-free entrance; and Redi Trench with integrated trench and drain. All Tile Redi bases include 2-inch PVC drain, adjustable stainless steel drain plate, and tile-setting materials.

↑ Muse One-Piece Toilet

This modern one-piece toilet from ICERA uses just 1.28 gallons per flush, with quiet Hyperion flushing technology making it overall 30 to 50 percent more efficient than most toilets. A larger trapway eliminates clogging, while precision rim jets, large water spot, and MicroGlaze non-staining, anti-microbial finish keep the bowl clean. Muse is available in black, white, and biscuit, with multiple metal finish options for purchase.

← ProLine Linear Shower Drain

The trough slope in this linear shower drain from Quick Drain ensures all water and debris are removed. Different spacer styles are available to raise the drain cover flush with the floor, regardless of material thickness. Strainer patterns consist of dots, horizontal, vertical, waves, diagonal, and tile-in/hidden drain. Quick Drain can also create customized drains up to 100 feet long.

← GE Wall Oven

This full-size convection oven from GE utilizes European direct air technology to improve cooking performance. New vents on top of the oven cavity channel heated air from the top and back oven wall directly onto the food depending on the desired cooking mode. Internal fans can reverse direction and operate at multiple speeds. Users can also control the Brillion-enabled ovens through an iPhone or Android app.

↑ Cape Anne Collection

Based on Danze's original Opulence collection, this new faucet collection is a more subtle, modest version for powder rooms and master baths. Items include two-handle centerset, widespread, Roman tub with personal side spray, tub/shower options, and pressure balance valve trim kits. All Cape Anne lavatory faucets sport a water-saving laminar flow of 1.5 gallons per minute.
