## 1 BainUltra Essencia Oval bath

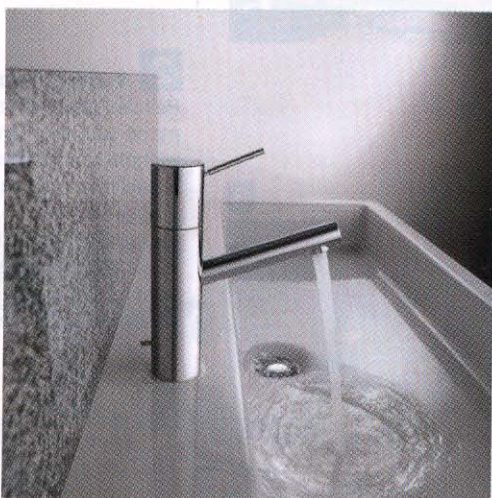

The new Essencia Oval bath from BainUltra is a freestanding tub with a dual row of air jets, foot rest and armrests. The tub also features an inverted V backrest and integrated headrest to ensure a perfect massage of the neck and spine, while the raised seat maximizes the massage effect for the legs. The Essencia bathtub measures 72" x 36" x 27" and incorporates sound therapy, aromatherapy and chromatherapy.

## 2 KWC ONO

The KWC ONO bath series offers clean lines, high-quality materials and Swiss manufacturing. The series includes lavatory faucets, a freestanding tub filler and a bathtub spout; overhead showers, a hand shower and a sliding wall bar; shower trim kits for either thermostatic and pressure balance valve applications; and an assortment of rough-in components and complementary accessories. The ONO includes the integrated Neoperl Caché aerator cartridge, with a flow rate of 1.5 gallons per minute.

## 3 D-Lead Paint Test Kit

The D-Lead Paint Test Kit is now available in a twin pack. According to test results released by the U.S. Environmental Protection Agency's ETV Program, the test is 99 percent accurate in determining the absence of lead-based paint. The test determines the presence of lead or lead-chromate in paint in 10 minutes. D-Lead works the same on all colors of paint and all surfaces including wood, drywall, plaster and metal.

## 4 Hansgrohe Puravida collection

Hansgrohe is expanding its award-winning Puravida collection, designed by Phoenix Design, with a 3-Hole and 4-Hole Roman Tub Set. The new tub mounted PuraVida 3-Hole Roman Tub Set and 4-Hole Roman Tub Set (pictured) are made of solid brass and are available in chrome or white/chrome. The upgraded 4-Hole option includes a tub spout with diverter and features a pull-out PuraVida 120 1-jet handshower with Wide Rain AIR spray mode.

## 5 Prestyl Radiant Artwork

Prestyl USA is launching a line of state-of-the-art far-infrared Radiant Artwork heating panels — panels of customizable thin-film artworks that provide heat to any room in a residential or commercial setting. The Prestyl far-infrared technology does not heat the air; the energy is reflected by some surfaces and absorbed by others, thus creating a balanced multidirectional warm experience. The thin-film panels come in white or black or can be customized to any custom color or design.

**Corian Terra Collection →**

DuPont has expanded its Corian Terra Collection to include 33 colors, with five colors — White Jasmine, Rice Paper, Raffia, Silver Birch and Dove — now having at least 20 percent pre-consumer recycled resin content. In addition, 17 colors have at least 13 percent pre-consumer recycled resin content and 11 hues are made with a minimum of 6 percent pre-consumer recycled resin content.

**↑ LG Hausys Viatera**

Viatera by LG Hausys introduces 15 new sophisticated colors to its popular collection of quartz surfaces. These color additions expand their robust palette and were inspired by emerging fashion and color trends. Viatera combines natural quartz with advanced polymers to create a non-porous countertop material that is stain-resistant and hygienic. The Viatera collection increases from 30 colors to 45, all backed by a 15-year transferable warranty.

**← Eluma RGB DecoSplash Illuminated Backsplash**

Element Designs offers a unique backplash system in the eluma RGB DecoSplash Illuminated Backsplash. The system is the industry's first fully customizable color-changing LED backplash, which allows homeowners to illuminate their kitchen with a variety of colors, including fuschia, turquoise, light blue, red, green, lime green, purple, and warm white. The DecoSplash integrates ambient, dimmable LED lighting with distinctive decorative inserts with patterned or digitally printed glass.

**← Lenova Entertainer Sink**

Lenova's Entertainer Sink is designed just for that — entertaining. The unit can be used as a prep sink before the guests arrive — with three removable stainless steel compartments, integrated cutting boards, and a large, two-piece drainer — and a drink station during the party. For casual entertaining, the whole sink converts to a beer and soda cooler and ice bucket. The cutting boards completely cover the sink to maximize counter space.
