1 **Maniscalco's** Bricks line of tile from its Barossa Valley Glass collection uses water-jet technology to ensure precise tolerances when individual cut stone and glass pieces are placed together. Bricks combines crackle glass and a thin offset linear pattern in its mosaics, which are offered in three colors: Rosedale, Jacob's Creek Blend, and Rosedale Blend (shown). Tile size is $\frac{5}{8}$ by 4 inches; sheet size is $11\frac{3}{4}$ by $11\frac{3}{4}$ inches. maniscalcostone.com **For more information, circle No. 815 on reader service card**

2 **Selena USA's** Tytan Outdoor & Landscape High Yield Adhesive dispenses like a foam, collapses into a gel, and re-expands to fill gaps when installing landscape block—particularly wall-top caps. The polyurethane adhesive benefits from wet blocks due to the moisture-curing properties of polyurethane. tytan.com **Circle No. 816**

3

3 Part of **WAC Lighting's** Endurance line of LED Exterior Lighting, the Flood LED Luminaires are built of die-cast aluminum and designed to be half the size but provide twice the light of similar exterior light fixtures. The luminaire is Energy Star rated, operates on 120V direct wire, and features 360-degree horizontal rotation and 90-degree vertical aiming for precise lighting needs. It is motion and photo-sensor ready, and comes with two canopy accessories so it can be either recessed or surface mounted. waclighting.com **Circle No. 817**

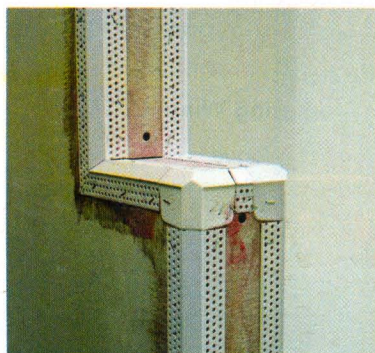

4

4 Ceramic vessel sinks in **Hastings Tile & Bath's** Elite Collection boast a thin-but-strong makeup and are available in square, round, and oval shapes in several finishes and colors including matte black, silver, or gold bi-color, and various patterned finishes. hastingsstilebath.com **Circle No. 818**

5

5 Engineered to sit flush along the wall, **QuickDrain USA's** WallDrain is hidden in plain sight. Featuring a stainless steel body with the company's patented Sure Flow System, the sloped trough removes all water and debris after each use. There are three standard sizes (48, 72, and 96 inches), with trough extensions available to adjust length for fit, and the grate assembly can be adjusted to the thickness of the wall's tile or stone covering. quickdrainusa.com **Circle No. 819**

6

6 To simplify finishing corners, **Trim-Tex** has introduced its Molded Corners to eliminate the need to make time-consuming miters where multiple beads meet. Available in a variety of designs—Chamfer, 350 Chamfer, 350 Bull, Bullnose, and Step A Bull—each type of corner is available in several styles for finishing two-way, three-way, inside, and outside corners. trim-tex.com **Circle No. 820**
