The Furniture Guild Guildstone Countersinks →

The Furniture Guild emphasizes customization with its new Guildstone Countersinks, which add sinks to any of the manufacturer's made-to-order vanities. Homeowners can select sink design (oval, square, trough, etc.) and edge thickness; the manufacturer will also customize placement of the sink in relation to the surrounding countertop, with a flush fitting or ½-inch overhang. The molded stone of Guildstone comes from a mixture of ground natural minerals, and is easy to clean and maintain.

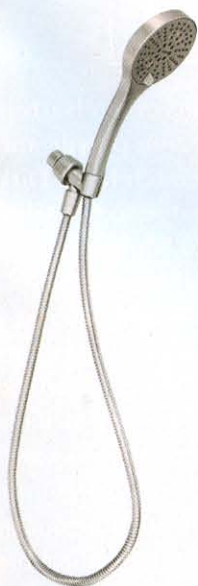

For more information, No. 800 on reader service card.

↑ Axor Starck V Transparent Fixture

This transparent washbasin mixer from the designer brand of Hansgrohe adds beauty to any kitchen or bathroom with its organic design. Water is propelled up through the fixture in a vortex at a rate of 4 liters per minute. The spout itself is rotatable and detachable, and completely dishwasher-safe.

For more information, No. 801 on reader service card.

← Moen Iso Six-Function Hand-held Shower

Six high-performance sprays are available from Moen's newest shower offering—from massage to combinations of soft and forceful full-rinse—with optimized pressure in each setting. The fixture itself, which includes a kink-free 60-inch metal hose for greater reach, will add a modern look to any bathroom. Moen offers the Iso shower in Chrome and Spot Resist Brushed Nickel finishes.

For more information, No. 803 on reader service card.

← KWC ONO Tub Filler

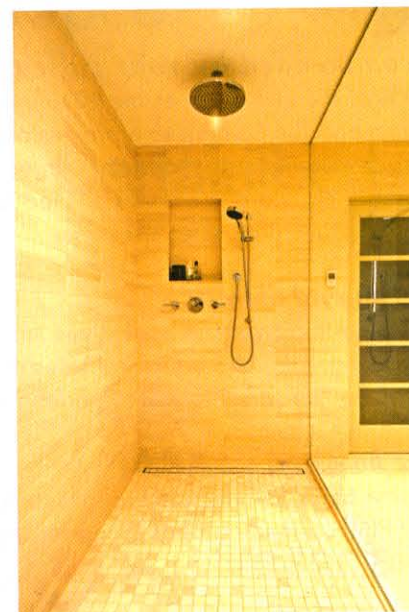

KWC offers two updated versions of its ONO tub filler: One offering sports the company's proprietary Splendure stainless steel finish with an integral, wand-style hand shower; the other comes in chrome with the architectural KWC ELY hand shower. Both versions feature a fixed, 7 7/8-inch spout and a 71-inch hose. The filler spout has a flow rate of 7.5 gpm at 60 psi; the shower's flow is 2.0 gpm at 80 psi.

For more information, No. 802 on reader service card.

→ LUXE Linear Shower Drain-Tile Insert

LUXE offers this linear shower drain option with tile insert as a decorative option for any shower. The drains are available in six standard sizes, ranging from 26 to 60 inches, with a welded 2-inch-diameter central outlet. LUXE systems accept any tile, stone, or other flooring material up to ¾-inch thick.

Tubs & Sinks

1 Duravit Architec Panel Tub

Duravit's new Architec panel tub is a modern approach to the standard alcove bathtub developed specifically for the North American market. Ideal for small spaces, the compact tub eliminates the need for costly installation, is easy to clean, and has a sleek appearance. It's composed of durable, high-performance acrylic and includes sophisticated features such as a smooth apron front and adjustable feet.

For more information, No. 810 on reader service card.

2 Moen 1800 Series Stainless Steel Sink

Moen has expanded its 1800 Series of stainless steel sinks to include new shapes, configurations, and depths. The new 30-inch apron-front styles are available with either a single or double bowl and have an exposed side along the front, making for a focal point in any kitchen. SoundShield undercoating ensures exceptional sound deadening and a wear-resistant, uniform, brushed finish offers durability and resistance to chipping, cracking, staining, and peeling.

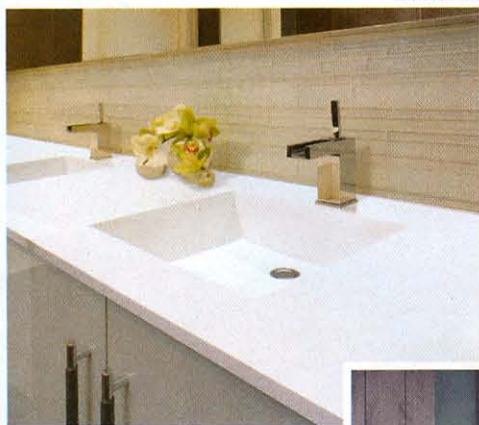

For more information, No. 811 on reader service card.

3 TOTO Connelly Lavatory Sink

TOTO's new Connelly Undermount Lavatory features a 15-inch square design with sophisticated lines that classify the Connelly Suite, which also includes a widespread or single-lever faucet and dual-flush high-efficiency toilet. The lavatory's deep basin reduces water splashing, and its SanaGloss glaze repels bacteria and soap debris. It's available in five colors: Cotton, Colonial White, Sedona Beige, Bone, and Ebony.

For more information, No. 812 on reader service card.

4 MTI Baths Counter-Sinks

MTI Baths has a new line of sinks appropriately named Counter-Sinks that are integrated with countertops and are available in a variety of single- and double-bowl shapes. The sink can be positioned in the center or offset to the right or left in counter sizes from 24 inches up to 108 inches. They're constructed with MTI's Engineered Solid Stone, a mixture of ground natural minerals and high-performance resins, for a non-porous, stain-, mold-, and mildew-resistant product.

For more information, No. 813 on reader service card.

5 Victoria + Albert Amiata Tub

Victoria + Albert and Italian design house Meneghello Paoletti Associates have come together for the new Amiata Collection, designed with a timeless-yet-modern look. The tub's Englishcast is a naturally white material rich in volcanic limestone that is hand finished to create a glossy look. It will never creak or flex, is highly durable, and is easy to clean. The Amiata measures 64¼-by-31½-by-24 inches.
