## Bathroom Tubs

Following is a sampling of new products in the bathroom tub market.

**1.** Tap fittings can be mounted easily on the 10-cm tub rim of Duravit's Seadream. A low step, the width of the tub, transforms the L-shape into a rectangle (163.5 x 141 cm) while offering space for towels and bathroom essentials. An additional larger step facilitates climbing in and out, as does the optional bathtub grip.

**Duravit. Circle 17**

**2.** American Standard walk-in baths feature a patented low-entry walk-in door for easy access and a contoured chair-height seat with deep soaking dimensions. Built-in grab bars and textured tub floors contribute to stability, while the optional Quick Drain removes water up to eight times faster than normal drains to further enhance bather comfort. Whirlpool, Air Spa or Combo Massage systems are available options.

**American Standard. Circle 18**

**3.** Sterling's 5-ft. Lawson bath offers functionality, a clean design, customizable options, surprisingly easy installation and an affordable price point, the manufacturer states. The Lawson bath is also available as a whirlpool with an optional heater. Designed to fit a standard stud pocket size, the bath is ideal for retrofitting. The bath is available in widths of 32, 36 or 42 in.

**Sterling Plumbing. Circle 19**

**4.** Kohler's Highbridge bath features a customizable storage solution that utilizes a recessed apron to open space on the exposed side of the bath. The bath can be installed and customized as an alcove installation with full front surround or custom storage front surround. Custom storage front surrounds create a place for products that typically clutter the edges of bath tubs.

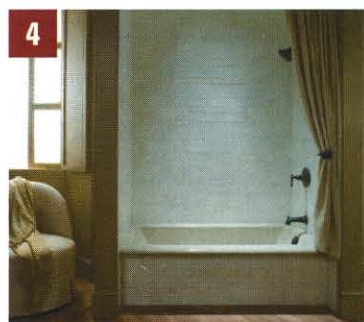

**Kohler. Circle 20**

**5.** Jetta announces its Elite Series whirlpool and air/whirlpool combination baths. The Elite Series provides depths up to 29 in., widths up to 46 in. and one- or two-person configurations. All Elite Series baths feature the company's Jetta Stay Hot Guarantee, up to 28 jets including rotating back jets, one or two 3-hp pumps and Tri-ssage controls for distinct pump flow rates.

**Jetta Corp. Circle 21**

**6.** As a free-standing or built-in version, AVEO, like Villeroy & Boch's matching ceramic collection, is notable for its organic form. The body-hugging shape and high back guarantee comfort and support for the spine and neck. AVEO is one of the few free-standing baths that can be fitted as a whirlpool; the technical components are all concealed in the outer shell.

**Villeroy & Boch. Circle 22**

**7.** This stainless steel soaking bath is fabricated by Diamond Spas. The full skirted bath surrounds a contoured bottom bathing well, and the interior is designed to cradle the shoulders, recline the back and elevate the feet. Diamond Spas specializes in custom stainless steel and copper bath fixtures and full bath ensembles.

# Vanities

**1.** The Clermont vanity from Kohler was designed with an eye toward beautiful details and subtle elegance. The facade consists of four grain-matched panels set in a reverse diamond pattern that showcases the handsome character of the wood in an eye-catching manner. The Clermont vanity is available in a range of four sizes in order to provide a stylish solution. **Kohler. Circle 66**

**2.** The Model No. 5243 vanity from DECOLAV is a multidimensional vanity that features a solid wood frame, white marble top and built-in accessory shelves. An intricate weaving pattern of the front cabinets provides both texture and dimension to this '50s mod-inspired design. **DECOLAV. Circle 67**

**3.** The New Avalon design in Plyboo from the Vanity Flair Collection by The Furniture Guild is made from 100 percent plywood made from renewable bamboo. The medicine cabinet features soft closing pop-up door and is semi-recessed. **The Furniture Guild. Circle 68**

Have you painted yourself into a corner?

You've made the mistake of purchasing the wrong software.

You may have purchased a different CAD software product because at the time your requirements were less demanding, money was tight, or you thought all software products were the same regardless of price. If you now understand all CAD software is not equal, then SoftPlan has a great offer for you.

For a limited time, you can **trade in** your current CAD software and receive **credit** towards the industry leader, SoftPlan. You can wait years until your current CAD software provider catches up while paying for their technical support and yearly upgrades. Or today, decide to benefit from the industry leading technology of SoftPlan.

Contact our sales department to see if you qualify at 1-800-248-0164 or visit [www.softplan.com](http://www.softplan.com)

**6.** Craft-Art's custom vanities are designed to fit any self-rimming, undermount or vessel made for a bathroom cabinet. Available in a wide range of natural wood species and styles, Craft-Art's tops are finished in an organic tung oil-based varnish that protects the vanity from water and staining, while still allowing the wood's natural grain to show through.
