Full Frame Replacement System

Sunrise Windows has released exterior brick mould for full-frame window replacements. The brick mould assists with replacements that are out of square or have experienced wood rotting and deterioration. It allows less time to be spent installing the window from outside and circumvents the use of aluminum trim. **Circle 35**

UDF-21

Gulf Synthetics' UDF-21 composite coating resurfaces wood, filling cracks and locking down splinters and nails. It is designed to outlast any sealer, stain or coating and provides a skid-resistant surface. The coating, which can be changed to any color by adding paint, is scuff, stain and fire resistant. **Circle 36**

Folding Job Saw

Milwaukee Electric Tool's Folding Job Saw offers a tool-free blade change to avoid downtime in the field; the blade folds into the handle for easy storage. The saw uses standard Sawzall blades and comes with blades that can be used on metal, wood and for multiple purposes. The rubber-over-mold design increases comfort and reduces hand slippage. **Circle 37**

Crystal-embellished Hardware

Atlas Homewares' crystal-embellished hardware consists of the Crystal Knobs and Crystal Pave Knobs and Pulls collections. These collections, which are created from brushed anodized aluminum and genuine European crystal, are offered in a variety of styles with inset stones. The collections allow for opulent hardware without the typical expense. **Circle 38**

LiftAlone

LiftAlone allows one person to install anything overhead. The tool can hold drywall ceiling panels, framing lumber, ceiling beams and ductwork. The full-size version is 68-inches wide and can be used up to a height of 10 feet. The device, which is made of steel tubing, breaks down easily to carry through narrow hallways and up and down stairs. **Circle 39**

36-inch DishDrawer

Fisher & Paykel has extended its DishDrawer line with a 36-inch offering. The dishwasher accommodates nine place settings in a single drawer that can be positioned at an optimal ergonomic height. The DishDrawer uses 1.95 gallons of water and achieves a Tier 2 water rating from the Consortium for Energy Efficiency. It also is Energy Star qualified. **Circle 40**
