Atlas Homewares (top)

A nice way to add mid-century cool to your exteriors, Avalon house numbers can lie flat against the house or raised to create a little drama. Numbers measure 4.5 ins. tall, use invisible mounting screws, and come in brushed nickel and aged bronze. atlashomewares.com

Atlantic Premium Shutters

The Architectural Collection shutters are made with marine-grade fiberglass stiles and louvers, proprietary composite wood panels and structural-grade PVC rails. As a result, the products are maintenance-free and will not warp. Various styles and 40 colors are available. atlanticpremiumshutters.com

Timberlane

Available in synthetic, wood or composite, the company's shutters also come in a variety of designs, such as flat, board and batten, operable louvered and in painted or raw wood. The company can also do custom tops, rabbeting and beading, and mouseholes, among other options. timberlane.com

Diamond Teak

A great addition to landscaping or outdoor areas, the Spirit Song Collection is modern with just enough warmth. The pieces are made from plantation-grown teak and feature stainless steel fittings. Various sizes are available. diamondteak.com

Eastman Chemical Co.

Offering the weather-resistant benefits of composite deck, Perennial Wood is modified with heat, pressure and organic compound, permanently expanding the wood's cell walls to a fixed position. Boards remain straighter, smoother and harder. perennialwood.com

DaVinci Roofscapes

This 12-in. composite polymer slate roof offers the appearance of a natural material but without any of the shortcomings. It's also durable and easy to install, the company said. A broad palette of colors and blends is available. davinciroofscapes.com
