**THE MOST  
REQUESTED  
PRODUCTS  
OF THE YEAR**

**53** Prestyl radiant heating panels can add warmth as well as aesthetics to any space. Each panel has a thin film that provides heat to an area without creating a hot surface. The patented film sticks on the inside of the aluminum housing and radiates heat. The units are powder-coated.

**56** The Studio Series suite from LG Electronics includes built-in cooking and counter-depth refrigeration kitchen appliances. The line's built-in wall ovens feature four convection options — convection bake, roast, crisp and healthier roast. The InfraGrill system utilizes infrared heating elements that bring the oven to broil temperature more quickly.

**57** Heritage Stone by ProVia enhances natural undercut for stunning realism. The actual rocks chosen for the line are carefully selected from unique geographic regions and then skillfully molded and cast. There are always 1,000 real stones used

in the molding process for each product line before a repeat.

**59** Sauder Woodworking's WoodTrac drop-in ceiling panels work with any 2x2 or 2x4 ceiling grid in which the width of the ceiling track is either 15/16 or 1 in. wide. A simple clip is needed to attach mouldings to existing track. Panels are available in two finishes: a dark finish called Abbey oak, and a lighter option called Bank alder. A paintable white version is offered.

**61** MoistureShield Vantage Collection composite decking is made of 95 percent total recycled content — verified by the International Code Council Evaluation Service. An innovative total encapsulation process protects wood fibers throughout each board. Vantage Collection decking is moisture-, stain-, insect- and rot-resistant. This allows the decking to be installed on or in the ground, or even underwater, without voiding the warranty.

**62** NanaWall Systems' dynamic glass, or auto-tinting "smart glass," changes tints with the flip of a switch to reduce glare, heat loss and heat gain. Doors with this glass control glare

to avoid investing in blinds or other window treatments.

**63** Foundry Stacked Stone siding by The Tapco Group is premium vinyl siding featuring rugged texture cast from hand-selected North Carolina quarried stone. It also has an enhanced coloring process that delivers vibrant tonal differences and a textured grout line. The ceramic microsphere finishing process provides believable color without any telltale sheen.
