

residential design & build

inspiring architects and custom builders

May 2010

Some assembly required

*Connor Homes proves
a home can be
premanufactured
and yet custom in
every sense.*

**BONUS SECTION:
OUTDOOR LIVING**

Winning the banking game
Well-organized kitchen design
Mid-century entry doors

Eldorado Stone Outdoor is a collection of lightweight, modular units that quickly assemble into custom barbecue islands, kitchen counters, bars, fireplaces and more. Each unit is made of GFRC, eliminating the need for costly concrete foundations, masonry blocks and rebar. Construction can be done in hours vs. days. For more info circle #67

DCS by Fisher & Paykel introduces its newly revamped Outdoor Module System. The system integrates its traditional grilling system with the versatile 360-degree grilling of the Liberty Collection to provide a single, versatile cooking platform. For more info circle #68

Dimension One Spas' hot tubs feature bold designs, mood lighting, iPod-friendly stereos and dancing fountains. Exteriors are made from recycled plastic, and water is cleaned with UV light and ozone. For more info circle #69
