said Nicholas Harris, VP of marketing at Caesarstone US. “Each year, KBIS is an exciting opportunity to connect with the design community and collaborate with like-minded individuals and brands to create meaningful design solutions.”

The Caesarstone booth, modeled after a contemporary home, will also feature a chef demo-kitchen, interactive stations, informative presentations, meeting spaces and much more in the masterfully designed booth. Caesarstone will continue its long-standing partnership with BSH and feature Thermador kitchen appliances throughout the space.

Caesarstone was also selected to showcase its new offerings during the KBIS Hard Hat Media Tour on January 10, and is a sponsor of the 30Under30 annual program. Select surfaces will also be featured throughout the New American Home during Design & Construction Week.

For more about Caesarstone, visit www.caesarstoneus.com.

Cinaton

FULL RANGE OF FUNCTION AND FASHION

Cinaton unveils new swivel faucet with touch-free technology

The K2005 touch-free swivel faucet by Cinaton packs a wealth of practicality into a sleek and stylish package. A 150-degree spout rotation gives this workhorse of a faucet uncommon flexibility and ease of use. With no handles to attract germs, the K2005 utilizes Cinaton's patented iSense® technology that allows easy operation without touching the faucet. Five infrared sensors provide complete control over 13 functions, from temperature to water flow, for the ultimate in cleanliness and convenience.

The K2005 swivel faucet is perfectly proportioned for a variety of settings, from a high-volume kitchen sink or medical office to a lower use setting such as a lavatory or butler's pantry. This faucet features solid brass construction for exceptional durability. It has a chic, contemporary vibe and comes in a choice of two finishes – Brushed Nickel or Polished Nickel – with a PVD coating for long-lasting beauty.

Thoughtfully designed in every detail, the K2005 includes a “pause” function, three user-defined presets for added convenience, a maximum temperature setting to prevent an accidental scalding, and a battery backup for continued use during a power outage. Its intermittent water flow and automatic shut-off combine for an eco-friendly design with up to 70% water savings. The K2005 was designed for a single-hole mount for a clean, uncluttered look. This exceptional faucet is ADA compliant and WaterSense certified and comes with a five-year limited warranty.

INDUSTRY [NEWS]

Cinaton was founded by the iSense® Touch-free Automatic Faucet inventor, and has been pioneering the faucet industry. Their iSense® technology has calculated the precise sensitivity to ensure the functionality of all their faucets are intuitive and convenient to the user. All Cinaton faucets feature solid brass construction and comply with federal regulations including ADA and WaterSense® certifications. Cinaton's innovative inventions have received 18 patents worldwide. The brand has created a patented Solenoid valve that turns water on-off, adjusts the temperature, can provide the user the ability to offer three different temperature settings, and adjust flow rate up or down. All this without touching the faucet. For more info please visit: www.cinaton.com.

THE AMERICAN MUSCLE GRILL BY SUMMERSET DELIVERS POWER, STYLE, AND MULTIPLE FUEL OPTIONS FOR WINTER GRILLING

The American Muscle Grill delivers superior grilling performance, features a classic car design inspiration, and is American made

Summerset Professional Grills, a leader in outdoor grills and accessories with 20 years of expertise in manufacturing and branding, introduces its revolutionary new American Muscle Grill (AMG). The AMG is the perfect product for year-round grillers with dual fuel flexibility and a sleek design inspired by the iconic Mustang '66 Shelby GT350 car.

The AMG gives users the option to grill with wood chunks, lump coal, charcoal, pellet fuels, infrared, propane or natural gas. This fuel flexibility lets grill-masters burn these different fuels individually or simultaneously and offers precision and speed for smoking a turkey or slow roasting game-day ribs to perfection. The American Muscle Grill not only allows for multiple fuel types, it excels in performance over its single fuel competitors.

The AMG features complete #304 stainless steel construction, solid brass flame-thrower igniters, and hand crafted reversible V-shaped grates that provide added control over heat-transfer. Its patented Multi-Fuel Tray System places the innovation in the chef's hands.

The AMG is available in both a freestanding or built-in model. The 36-inch unit is stacked with 110,000 BTUs of raw horsepower and soon grillers will be able to choose a 54-inch unit with a whopping 176,000 BTUs. Maximum horsepower means maximum performance and that is what the AMG delivers.

The retail price for the AMG is \$5,499 (countertop) and \$7,499 (free-standing). Each AMG is proudly designed, built, and factory tested in the USA. With excellent customer support and a lifetime warranty (including the burners), each component and accessory is designed and constructed to the highest standards. The American Muscle Grill has the features and flexibility to be the last grill you will ever need. For more information visit www.americanmusclegrill.com.

A MIX-AND-MATCH MODERN MASTERPIECE

Isenberg's new Series 145 offers an impressive array of minimalist bath fixtures

The stunning new Series 145 is another impressive achievement from the Isenberg design team. The collection perfectly captures the elegance of the modern minimalist look which is so popular today, and it has been fully developed to include 21 coordinating pieces. Professional designers appreciate this mix-and-match variety that makes it easy to pull together a cohesive bath ensemble to fit any project and budget.

The Series 145 is notable for the beautiful simplicity of its design, with classic lines and flowing curves that make each piece a true showstopper all on its own. Shown together, the Series 145 ensemble creates an exceptional bath environment. Choose from a bold single-hole basin faucet, a deck-mounted Roman faucet with dramatic arch, or a striking freestanding tub filler. Options include a variety of configurations for sinks and tubs, as well as thermostatic shower valves and diverters. There are even coordinating accessory pieces to choose from, such as towel bars, robe hooks and paper holders.

The Isenberg brand is known for the singular quality of its craftsmanship. The Series 145 reflects that attention to detail, with fine ceramic disc cartridges that enable a smooth and easy lever movement. Hidden aerators are featured in the 8" widespread and Roman tub spouts to deliver a smooth, splash-free stream of water and promote eco-friendly water conservation. Made with solid brass construction, the Series 145 is available in chrome, polished brass, and polished nickel. As with all Isenberg products, the collection is backed by a limited lifetime warranty to ensure years of flawless form and function. ELMIRA STOVE WORKS ANNOUNCES KITCHEN DESIGN CONTEST

Elmira Stove Works, leading manufacturer of premium vintage-styled kitchen appliances, announces the 2017 Kitchen Design Challenge, offering appliance dealers, builders and kitchen designers the opportunity to showcase their Elmira projects to a broad audience, and win a voucher to purchase Elmira appliances or to promote Elmira in their market.

By entering the contest, designers have the opportunity to share their latest and greatest creations featuring Elmira Stove Works appliances. Entries will be judged on the following criteria: creativity and innovative approach, quantity of Elmira product used, overall aesthetics of the design, compatibility of kitchen elements, and WOW! factor. Entries must include high-quality photographs and a description of the design project.

Elmira is accepting entries now through Oct. 31, 2017, and voting will begin on Nov. 10, 2017. Up to ten finalists' designs will be posted on Elmira's Facebook page, where fans will vote by "liking" their favorite project.

The first place finisher will receive a \$2,500 voucher that can be used to purchase Elmira appliances, or to promote Elmira in their market area. Second place will receive \$1,000 to be used for the same application.

To enter the contest, e-mail media@elmirastoveworks.com. For more information, visit www.elmirastoveworks.com.
