PREVIEW

1

BOILER SYSTEM

1 Dunkirk introduces its Helix VLT, featuring a vertical laser tube heat exchanger constructed of 316L/444 laser-welded stainless steel fin tube. The boiler is 96% AFUE, has sealed combustion and a built-in outdoor temperature rest to improve heating systems' efficiency in residential applications. The Helix VLT includes a full 15-year warranty and additional First Year Heat Exchanger coverage.

Taco 2400 Series Pumps

3

PRODUCT VIDEO AVAILABLE

3 The second volume of Taco's point-of-purchase DVD is now available for the company's rep firms and wholesaler customers. Taco's John Barba explains the company's new products and Flo Pro contractor programs, which are designed for maximum flexibility in showrooms and pickup counters. Content includes low water cutoff, the e-smart product family, Zone Sentry and Taco's Connect program. It also features the company's 2400 Series high capacity circulators and University online training. E-mail raeld@taco-hvac.com to order one or more copies.

4

SUMP PUMP DUPLEX CONTROL

4 The 5050-Series Duplex Control from Liberty Pumps is designed for use in sump pump applications that require control of two pumps. The unit provides alternating operation of two 120-volt pumps. Power is switched to the second pump in the event of a pump failure, and a built-in alarm is activated. The system is available with vertical-style floats or wide angle floats.

5

DEHUMIDIFICATION SYSTEM

5 Munters' DryCool HD Dehumidification System uses a combination of desiccants and non-ozone depleting refrigerants. The system's desiccant dehumidification wheel and R-410a refrigerant uses 40% less energy to dry air than competing technologies, the company said. The system also helps to prevent moisture-related problems including mold, mildew, biological allergens and odors.
