PRODUCT PREVIEW

NEW KITCHEN-AND-BATH PRODUCTS

SINGLE-FLUSH TOILETS

Easy-to-clean PuraClean glaze, improved styling, including a decorative metal trip lever, and an extended warranty are a few of the top enhancements now available on all single-flush Summit toilets from Mansfield Plumbing. Summit toilets all feature the Mansfield three-bolt, tank-to-bowl SmartFasten system to prevent leaking and rocking, plus high-performance MagnaFlush flushing technology. The toilets can flush 1,000 grams MaP and come in three low-water consumption options: 1.6 gpf; 1.28 gpf; and a dual-flush 1.1/1.6 gpf. The Summit line includes 13 models featuring four bowl configurations.

KITCHEN FAUCETS

California Faucets' The Kitchen Collection, Corsano offers the choice of four handle options along with a complete range of matching accessories for a fully coordinated look. With a high-arc spout, Corsano stands on a cylindrical base of slightly larger diameter. It also features a substantial Blade handle (or optional Stick handle), which can be finished in matte black. Corsano includes an ergonomic pulldown sprayhead, which is made of solid brass and features magnetic docking for easy return. The sprayhead also allows the user to toggle between single stream and spray modes.

DECK PLATES

T&S Brass and Bronze Works' new universal deck plates make upgrading faucets easier without the limitations of existing sink configurations, the company states. The deck plates allow a single-shank product, such as single-lever faucets or many in the T&S ChekPoint line of water- and energy-saving sensor faucets, to be installed in nearly any sink by smoothly covering and sealing unused holes. The deck plates, available in 4" and 8" versions, are fully compatible with T&S' line of vandal-resistant faucet models.

BATH SERIES

Isenberg's new 150 bath series includes 20 matching pieces from basin faucets and tub

fillers to shower controls and more. The company notes the line has a bold contemporary shape and smooth lines.

PULLOUT KITCHEN FAUCET

The Danze Mid-Town pullout kitchen faucet features the SnapBack retraction system that combines a specialized under-the-counter Griplock weight, a low-function abrasion-proof hose and a

sprayhead that fits into place every time.

IN-WALL TOILET SYSTEM

Geberit's updated 2x4 in-wall tank and carrier system caters to design preferences with a full range of actuator plates and remote controls, and is a flexible choice for buildings with high floor constructions.
