PRODUCT PREVIEW

VERSA-FLAME COMBINATION UNIT

6 HTP's Versa-Flame gas fired combination unit offers endless hot water and space heating functionality, while fitting into a small footprint. It incorporates today's heating technology with hydronic mass stabilization and utilizes high thermal mass, reaching 288 gallons for the first hour delivery. Featuring a unique single-loop design with low pressure drop, it eliminates the need for primary secondary circulation for space heating applications.

MICRO SERIES UNDER-MOUNT SINK

7 The Micro Series Under-Mount sink line from Ukinox offers sharp, professional styling with the hygienic benefit of "Micro" radius corners that are slightly curved for easier cleaning. Features include a sleek satin finish and a 10-inch deep, hand-fabricated heavy duty 18-gauge stainless steel bowl. The sinks include basket strainers, mounting hardware and counter top template for easy installation.

BATH WASTE AND OVERFLOW DRAINS

9 Matco-Norca offers a full line of Bath Waste and Overflow Drains under its Plumbing Specialties product group. They are available in Gerber-style solid brass or white polypropylene in three different styles: Trip Lever Waste, Lift & Turn Drain and Toe Touch Drain. Matco's Gerber-style solid brass bath drains are constructed with extra heavy castings, solid brass nuts and 17-gauge tubes. Its white polypropylene bath drains are all plastic with a chrome-plated face plate and drain.

WATER-SAVING FAUCET OUTLETS

10 NEOPERL's SLC Spray includes silicone tips for a softer gentler stream and for protection against lime build up. Simply rub the silicone tips like you would with a showerhead to clean the outlet. PCA Spray SLC is pressure compensating for high performance in all pressure conditions and is available in 0.5, 1.0 and 0.35 gpm for maximum LEED points. Its integrated anti-clogging dome screen filters sediment. Available in regular and small sizes.
