Shower pan

Aquatic's 60" x 32" x 21 7/8" 6032AB acrylic shower pan has a low threshold for safe entry and exit, and includes an integral corner seat. Combined with the pan is a custom tile-up application. Features include: a slip-resistant, textured bottom; reduced 4" threshold; left- or right-hand drain; durable high-gloss finish; corner drainage channels; step-design finishing guides and an extended nailing flange. The pan also comes with an extended tiling flange, enhanced front profile and a five-year limited warranty.

Luxury bathtub line

The new oval-shaped Parisian tub from MTI Baths makes a strong visual statement with flowing curves and exaggerated rounded areas. Its classic silhouette gives it a sophisticated look with a sense of luxury and ease. A part of MTI's Designer Collection, this freestanding tub is as inviting as it is traditional. While the Parisian's exterior is bold, its interior is ergonomically sensitive, with softly curved backrests that foster relaxation in a long hot soak. This tub is also available as an air bath, and also offers a heating system that warms the interior bath surface for increased comfort and relaxation.

Mobile hand sink

With Advance Tabco's new line of mobile hand sink, a water source can be utilized wherever a 120-volt electric outlet is available. These sinks are available in two sizes (26" x 26" and 31" x 26") and can be ordered with just cold water or with a hot water heater. All sinks include fresh and waste water tanks, heavy-duty 4" casters, a 6' electrical cord and a 10" x 14" sink with faucet. Other options are available.

Mobile app

The WARDFLEX Job Site Assistant app is available for Apple and Android products. The mobile app can help with sizing charts wherever you go by allowing installers to easily determine the correct size of WARDFLEX tubing. No need to flip through the design and installation guide. By supplying the type of gas, supply pressure, pressure drop and the length of the run, the app will calculate the flow capacity for each size of WARDFLEX CCST. Features include FAQs, "slide rule" calculator to quickly select values needed for calculating tubing size, and a custom calculator for uncommon supply pressure and pressure drops.

Trailer jet

The JM-2512 Typhoon trailer jet from General Pipe Cleaners blows away blockages in big lines and long runs. The Typhoon delivers 12 gpm at 2,500 psi to blast lines clean of grease, sediment and debris. A 200-gal. holding tank carries enough water to handle remote applications where access to water is limited. Standard features include electric brakes, safety strobe light, safety cones, rear fold-down stabilizer jacks, retractable hose guide arm and antifreeze systems.

Plumbing how-to videos

BrassCraft Manufacturing introduces new how-to videos of common plumbing installations and product videos, which feature BrassCraft products. These videos can be found at BrassCraft.com and Youtube.com/brasscraft. The videos provide straightforward information for trade-school instructors and students to professional plumbers as well as do-it-yourselfers.
