Raising a FAMILY HOME

A couple attracted by Coronado's 'community feel'
update a 1950s house with their future in mind

Above: The luxurious master bathroom includes a glass-walled, double-size shower; a Victoria + Albert freestanding tub; a combination of gray and white marble; and, not visible in this photo, a built-in cabinet with an undercounter refrigerator. Behind the mirrored door to the left of the shower is a room-size closet with a display-top island that showcases Tara's jewelry.

Left: Tara and Andy enjoy spending time outside with their daughter. The family moved into their remodeled house just in time to celebrate Harper's first birthday with a party in the back yard.
