VT Hackney Extends Van Shelving Packages to Dodge Promaster

vthackney.com

VT Hackney has extended its aluminum shelving line to select Dodge Promaster van models, building upon the success of its shelving for in box style, Sprinter and Ford Transit vans. Standard kits are available for quick delivery and installation, but modifications can be requested to better accommodate an operator's business.

The shelving is lightweight with adjustable shelves designed to hold Hackney's storage trays and tools. Driver side and passenger side kits can be purchased separately or as one package with top shelf storage for ladders and pipe. Introductory packages provide open areas for bulky items, such as hot water heaters. The shelving can be purchased directly from Hackney or through Dodge dealers.

A. O. Smith Launches 'Commercial-Grade' Residential Water Heaters

aosmith.com

A new line of residential water heaters from A. O. Smith incorporates its commercial-grade technology and components. The ProLine® family of water heaters is available in three categories:

ProLine, with commercial-grade parts and reliability;

ProLine Master, with high-end components, including dual stainless steel elements and increased anode protection, along with extended eight-year warranty coverage in both electric and gas models;

ProLine XE, with the highest performance and greatest energy efficiency with alternative technologies, such as heat pump and tankless.

Touch-Free Faucet Is Hands-Free

cinaton.com

Its lack of a handle enhances the B3004 vessel faucet's minimalist look. Its patented iSense system allows for hands-free operation. Five infrared sensors control numerous functions, ranging from temperature to water flow. It includes a convenient "pause" function, a battery backup and three presets to save water temperature and flow settings.
