5. From a bottle of organic beauty cream to a bottle of spring water, a cold storage compartment keeps chilled items on hand when and where you need them. Lengthen the life and increase the efficacy of expensive cosmetics without making trips to the kitchen. A separate compartment allows certain items to stay cold, while others remain at ambient temperatures. With no compressor involved, the cooling is quiet and inconspicuous. **Alexander Marchant. 512.462.1444, www.alexandermarchant.com.**
