### 1. SEAMLESS TRANSITION

Linear drains are a subtle and efficient way to eliminate water from the shower floor. WallDrain by QuickDrain USA is installed in the wall, so there's no disruption in the shower design. The fully sloped drain ensures no standing water, and it can be installed with any thickness of wall tile and up to ¾-inch floor tile.

### 2. SCANDI STYLE AND COMFORT

The swivelling Turtle armchair owes its sculptural effect, lasting shape and comfort to high-density foam. Made in Sweden, the chair has a tilting mechanism with return memory so that the seat always returns to its original position. With a matching ottoman, Turtle is upholstered in your choice of more than 500 leathers and fabrics.

*HOMEdelight Furnishings*

### 3. SMALL AND STYLISH

The Dryden chair offers Mid-century Modern styling within a small footprint. Its slimline walnut frame ends in tapered legs capped with silver ferrules, and a plush poly foam cushion adds comfort to style. The parchment-coloured upholstery has a subtle basketweave texture for extra interest. Seat: 21.5" W x 20.25" D.
