PITTSBURGH MARATHON

THE MASTER BATH

For the master bath, LUXE designed a spa-like space in a soothing color palette with high-tech features, including the 30-inch-by-30-inch Hansgrohe AXOR rain shower head and a fully integrated INAX toilet.

1. The LUXE team designed an 84-inch custom wall-mounted vanity with under-cabinet lighting. His and hers sinks, paired with two electronic lift medicine cabinets from The Furniture Guild's Nuvo line, end the war for space in the bathroom, while the Island Stone cladding full-wall backsplash adds dimension and texture to the room.
2. After a long week, the free-standing BainUltra ThermoMasseur air bathtub with a Chromatherapy LED lighting system, is the chicest way to get some rest and relaxation.
