

Architectural PRODUCTS

DECEMBER 2009

SPECIAL ISSUE: PRODUCTS FOR EXTERIORS

Structural framing and hanging systems aren't just for glazing anymore. Advances in rainscreen technology are allowing the application of many interesting and independent facade materials, including terra cotta.

EXTERIORS

SCULPTURE SAAVY

The new Sade Collection from **Graff Faucets** features artistically crafted pieces with a fluid profile. Collection includes wall-mounted designs, handshowers and single-hole designs, in addition to floor-mounted designs that stand like architectural sculptures. Visit graфф-faucets.com or Circle (481)

THREE-IN-ONE DISPLAY

With a convenient assembly, the MXF Exhibit Display by **Xtra Lite** uses edge-to-edge graphics to generate a maximum impact. Each display can be used separately for greater flexibility, or the MXF can be utilized as a one-piece, continuous fabric for seamless presentation. Manufactured with patented XtraFlex technology for easy installation, the system comes with a lifetime repair or replacement warranty. Visit xtralite.com or Circle (479)

Meticulous Craftsmanship. Incredible Strength. Timeless Elegance.

LIGHT BRIGHT STORAGE

Lasertron offers a recessed stainless steel cabinet with lighted inserts that emit a rainbow of light. Cabinet illuminates contents and provides a soft ambient light for the surrounding room. Constructed of premium-grade stainless steel, the cabinet is durable and rustproof. The custom-sized cabinet features a brushed finish with fingerprint-resistant clear coat. The doors feature welded corners, rolled edges for a finished look. Visit lasertrondirect.com or Circle (480)
