1. Get the feel of a natural rainfall with **Deca's** 8.625-inch Aquamax Square showerhead. The piece immerses bathers in full-coverage spray yet boasts an eco-friendly 2.5 gpm flow rate.

www.deca-us.com

2. **Delta's** sleek, solid brass Grail (shown here) and Arzo faucets now flaunt Proximity Sensing Technology. When hands come within four inches of the faucet it turns on; it then shuts off two seconds after hands are removed from the water stream.

www.deltafaucet.com

3. **Veritas** answers designers' needs for limited space with the Veritas Links and Collage series. This collection artfully disguises bathrooms with its customizable architectural panels with PureColor technology.

10. California Faucets introduces its new StyleDrain. The fast-flow efficiency drain with 30 available finishes comes in two designs and patterns ranging from traditional to Art Deco. www.calfaucets.com

11. Jaclo's Aquavolo Duetto bathroom fixture showers users with two types of water pressure. The form is unique—the horizontal position of the flat spout offers a rain shower and if flipped down, the water falls like a waterfall. www.jaclo.com
