**1.** The Winston vanity by **The Furniture Guild** features a seamless solid brass construction. Each piece is made by a single craftsman using FSC-certified hardwood, formaldehyde-free plywood, and GREENGUARD-certified finishes. Drawers can be customized with glass dividers, suede inserts, glass jars, and integrated power. [furnitureguild.com](http://furnitureguild.com)

**2.** Wallpaper shouldn't be reserved for big walls—give smaller surfaces some love with these speckled prints from **Murals Wallpaper**. These freehand dot murals are modern and chic while delicate paint splatters introduce elements of interest and playfulness. Patterns are captured with HD photography and digitally printed. [muralswallpaper.co.uk](http://muralswallpaper.co.uk)

**3.** **Ege Seramik's** METROPOLITAN is a collection of slightly textured, glazed porcelain tile that combines a modern concrete look with story patchwork units. Available in two deco options and four colors with V2 shade variation, these matte-finished tiles come in four sizes. [egeseramik.com](http://egeseramik.com)

**4.** Qui from **Studio TK** is a system of ottomans, tables, and space dividers along with complementary accessories. Ottomans are offered in three diameters, the smallest with optional casters and the largest with optional USB power. The Qui table collection comes in a range of sizes and configurations, and is available in six different wood finishes. [studiotk.com](http://studiotk.com)

**1.** **3form** introduces two Full Circle designs that incorporate indigenous raw materials related to rebuilding efforts after the Nepal earthquake. Kathali (shown) features wood shavings arranged in a harmonious pattern and stained with three neutral palettes. Lina includes bamboo dowels fused into the interlayers.

**2.** The Thermostatic Shower Panel from **LENOVA** is a sleek, sculpted system that includes a rain shower top, multiple body sprayers, and a handheld shower. Creating a spa-inspired experience, the single-handle design with adjustable sprayers and settings offers dual control over water flow and temperature.

**4.** Tribeca from **Hardware Renaissance** features a striking contemporary design with a natural white patina. The distinctive, high-quality hardware adds that unexpected extra pop to elevate doors. Because of its durability, the fixtures can last for an extended period of time, reducing landfill waste.
