Lighted Medicine Cabinets - Designer LED Lighted Cabinet Range by Lasertron

Accessories | Apr-24-09

This neat and stylish idea is the range of [LED Lighted Cabinets](#) by Lasertron. Designer lighted medicine cabinets, these fashionable accessories offer the ultimate finishing touch to modern decor, anywhere in your home from bathroom to poolside. The recessed stainless steel cabinets are available in any size, so you can display and illuminate your treasured possessions however you like. You needn't worry about the energy consumption either - the cabinets are ultra-efficient. The Lasertron medicine cabinets look great housing a collection of glasses, as shown here, and would be a fabulous finishing touch for a home cocktail bar area, for example. LED light shines through the fun, abstract cut-outs on the cabinet doors in a rainbow of colours. Open the cabinet and the whole area will be flooded in a luminous glow. A dramatic storage solution, from Florida-based company [Lasertron](#).
