## A Salute to Japanese Bathing

### MTI Whirlpools Introduces an Authentic Japanese Soaking Tub, Yume

June, 2009 – MTI Whirlpools introduces their latest freestanding tub, the new Yume. A Japanese-inspired tub, the Yume has a generous depth for the ultimate in relaxation. The new Yume tub conveys a sense of serenity that will transform your bath into a haven to renew and refresh the body and mind.

With its classic Japanese inspired contours, the Yume features a crescent-shaped seating bench that is positioned low to the floor for maximum immersion, providing a deep bathing experience.

The Yume can be outfitted as a soaker or air bath and measures 52" round. The Yume measures a spacious 52" x 52" x 35.5" deep and ranges in retail from \$4,940 as a soaker to \$8,583 with MTI Whirlpools' patented Aria Elite. Yume combines luxury options in harmony with today's modern tastes, bathers can choose to submerge themselves into a still water soaking bath, Japanese-style, or tailor their experience with a thermo-air massage or a combination of both.

Air bath therapy produces an effect of well-being throughout the whole body. It relaxes the muscles while stimulating the production of our natural analgesic hormones known as endorphins. Because of the stimulating but non-aggressive action of thermo-air massage, the elderly can also enjoy and benefit from it.

MTI offers two unique air systems: System Aria and Aria Elite. Both systems provide a light full-body massage through 20 air jets on the bottom of the bathing well. An unobtrusive electronic keypad allows adjustment of the speed and intensity of the air massage from soft and caressing to more vigorous. Or you can select the wave effect, which alternates the speed between strong and soft to create a very efficient lymphatic massage.

Since 1988, MTI Whirlpools has earned a reputation for impeccable quality, innovation and unique customizations for its expansive line of bath products. MTI's Designer and Classic Series include over 100 bath models, most of which can be specified as a soaker, air bath, whirlpool or combination whirlpool / air bath. Manufactured in high-quality Lucite® crosslinked cast acrylic, there is a wide variety of shapes and sizes from which to choose, complemented by a huge range of options and accessories. MTI also offers durable acrylic shower bases, frameless glass enclosures, bath furniture and specialty products, such as the Jentle Jet® laundry sink. MTI's Boutique Collection of design-savvy solid-surface tubs, lavatory sinks and shower bases presents a rich resource for those looking for bath products in alternative materials.

Located near Atlanta, the employee-owned company offers products through an exclusive network of kitchen and bath showrooms throughout the country. The company is gaining national recognition for its ability to provide products that are both innovative and classic.

For more information about MTI's Yume tub, call 800-783-8827 or visit [mtiwhirlpools.com](http://mtiwhirlpools.com).
