**A RANGE OF PRODUCTS THAT  
HELP LANDSCAPE ARCHITECTS  
GET THE JOB DONE.**

BY KATARINA KATSMAS, ASLA

GARDENSPACE

**GARDENSPACE**

This comprehensive system monitors the health of surrounding vegetation and sends data to an app to help determine whether a little extra care is needed. GardenSpace also saves water by detecting when and how much to water. Should pests come close, the device sprays water toward nearby movement, deterring potential invaders. ●

FOR MORE INFORMATION, VISIT [WWW.GETGARDENSPACE.COM](http://WWW.GETGARDENSPACE.COM).

COURTESY AQUOR WATER SYSTEMS. TOP: COURTESY COYOTE LANDSCAPE PRODUCTS. BOTTOM

**HOUSE HYDRANT**

This faucet system connects to an existing home water system for easy water access. It is made from stainless steel, which provides winter protection without winterization. When unplugged, the system uses water pressure to keep the unit shut, preventing leaks. ●

FOR MORE INFORMATION, VISIT [WWW.AQUORWATERSYSTEMS.COM](http://WWW.AQUORWATERSYSTEMS.COM).

**TOUGHEDGE**

This new durable edging option from Coyote Landscape Products is available in three different colors at three different heights. The EcoCoat powder-coating process is billed as one of the most earth-friendly, and all the company's products contain at least 70 percent recycled steel. ●
