## OUTDOOR KITCHEN

Danver's cost-efficient outdoor kitchen and amenity Post & Panel System has a simple inline design featuring stainless steel construction that provides strong countertop support and durability while eliminating unnecessary space and weight. Shipped flat and easy to install, the system is available in plain stainless steel or a range of powder-coated finishes. The units adhere to ADA regulations and include removable panels for easy replacement. **For more info circle 861**

## LAMINATE

Wilsonart's Material Mixology Collection includes 27 new laminate patterns curated for color, design, and durability using five themes: Graphic Wood, Marquetry, Olive Wood, Planked Wood, and Graphic. For interior use only, the laminates are suitable for residential furniture, fixtures, and casework, and for architectural applications such as columns, wainscoting, valances, cornices, interior doors, and divider systems. **For more info circle 862**

## HARDWARE

Atlas Homewares is rolling out three new cabinet hardware collections: Oskar, Kate, and Bradbury. Oskar includes circular knobs with grooved borders. The Kate line is characterized by square pulls with a brushed texture and contrasting border; pulls have squared ends capping long, rectangular handles. And the Bradbury features exposed hardware, with a selection of knobs, pulls, and handles available in a variety of sizes and finishes. **For more info circle 863**

## LOCK SENSOR

Marvin Windows and Doors' Lock Status Sensor brings smart home capabilities to Marvin products that are ready for wired or wireless connectivity. Every window and door equipped with Marvin's Lock Status Sensor is delivered to the jobsite ready to be integrated into the home's security system. Details regarding compatible security systems were not yet available at press time. **For more info circle 864**

## PAINT

Available in spring 2018, Sherwin-Williams' SnapDry water-based door and trim paint will also come in a satin finish. Suited for door and window projects, the formula offers durability and easier cleanup, with dynamic color and finish. Formulated for brush, roller, or spray application, the interior and exterior acrylic latex paint is resistant to dirt, fingerprints, UV rays, and weathering. **For more info circle 865**
