MORE OF A GOOD THING

New finish options now available on popular Atlas Homewares bath accessories collections

Atlas Homewares is mixing things up by offering fabulous new finish options on some of its most sought-after hardware collections. Did anyone mention gold? Yes! French Gold is the latest “it girl” of the color world and it is taking center stage with a sophisticated shine. Also new is the elegant Polished Nickel finish, another “hot” look that is creating a buzz of its own.

New finish options add to the excitement and creativity of today’s bathroom décor. There’s something so glamorous about French Gold – a classy interpretation of the 1980s that brings a touch of chic refinement to the bath. It’s particularly gorgeous when paired with marble and white cabinetry, creating a luxe look that works with modern and traditional styles. And we can’t say enough about the Polished Nickel finish. It has a gleam and shine that is understated but dramatic – a perfect choice against dark woods and textured granites.

The new finishes are now available in four Atlas bath collections. Look for them in the hotel-inspired Axel Collection with its crisp contemporary vibe, the refined vintage style of the Gratitude Collection, the simple yet geometric Parker Collection, and the Solange where rounded angles and exposed bolts create a modern edge. All are offered in previously available Polished Chrome and Brushed Nickel as well, and come in a variety of formats, including hooks, towel bars and racks, hand towel holders and paper towel holders.

Atlas Homewares has enhanced home décor with decorative hardware that is both inspiring and style driven. Drawing inspiration from everything from nature to global travel, the Atlas collection strikes a connection with those who have an eye for fashion. Atlas Homewares aspires to set the trend when it comes to decorative hardware. Each season brings a new collection ensuring a dynamic gallery from which to choose and longevity in an industry that demands a discerning eye.
