

Tableau Collection: choose a backplate design and pair it with your choice of rectangle or arc pulls.

EXPRESS YOURSELF

Design it your way with the new mix and match Tableau Collection from Atlas Homewares.

There's something very satisfying about creating your own custom look – and Atlas Homewares makes it easy with their new Tableau Collection of interchangeable hardware. Inspired by a modernist take on classic geometry, this versatile collection allows the end users to unleash their creativity. The pieces come unassembled with shapes and finishes that can be mixed and matched to suit any décor or style preference. The end result is a custom configuration that celebrates clean lines and artistic freedom.

The Tableau Collection features round or square bases that work seamlessly with rectangular or arc handles. Countless variations are possible, with looks that complement any setting from a sophisticated urban penthouse to a traditional farmhouse kitchen. Individual pieces are sold separately – allowing consumers and designers to fashion their own “collection” as they see fit. Pair a round base with a square handle, or visa versa. The Tableau Collection is even designed to be installed in either horizontal or vertical position. Mix Polished Chrome with French Gold for a dramatic look, or choose Brushed Nickel base with a Polished Nickel handle to add dimension. Handles may be installed without bases if desired. Use one style on cabinet doors and another for drawer fronts – it's all up to you!

The Tableau line comes in a variety of sizes, from 1 7/16” to a sizable 3”. They are available in a selection of four beautiful finishes – Polished Nickel, Brushed Nickel, Polished Chrome and French Gold.

For more information about the Tableau Collection or Atlas Homewares, visit www.atlastothetrade.com.
