The quest for your wellness™

PURITY. SERENITY. LUXURY.

Introducing Nokori by BainUltra

FOR IMMEDIATE RELEASE: JANUARY 18, 2016

(Québec, Canada) BainUltra pays tribute to classic cubic design with the revelation of its newest therapeutic bath collection – Nokori™. These free-standing tubs capture the purity of minimalist design with a geographic silhouette that blends with nearly any architectural style. Simple rectangular lines permit a remarkable flexibility of design, allowing the tub to be placed floating away from the wall or fitted against one, two or three walls, creating a spacious or cozy bathing experience as desired.

The Nokori Collection features tubs in five different sizes ranging in length from 58 to 71 inches, with two configurations that will comfortably accommodate two bathers. Made exclusively of durable acrylic with a seamless appearance, these beautiful bathtubs offer exceptional quality and a glossy white finish that's made to last.

As a leader in the realm of air jet baths, BainUltra is pleased to bring its Thermomasseur® options to the Nokori Collection, unleashing the full benefits of hydro-thermo massage to relax the body and mind, relieve back pain and muscle aches, stimulate blood flow and eliminate toxins. Enjoy the comfort of heated backrests and options for soothing chromatherapy, Geysair™ warm air jet technology to maintain consistent water temperature, and WarmTouchShell™ heating zones for greater comfort and relaxation.

Nokori is a welcome addition to the BainUltra family of exceptional therapeutic baths and therapy experiences. With its sensational looks, unique design flexibility and impressive range of therapeutic options, the Nokori Collection is destined to be a fine example of BainUltra's continuing tradition of excellence.

Nokori™ - Purti. Serenity. Luxury.

ABOUT BAINULTRA
