A New Handle on Elegance

Grandeur Hardware debuts collection of diamond-inspired crystal knobs.

(Denver, CO – February 2017) Grandeur Hardware brings the incomparable beauty of diamonds into the home with their stunning new Baguette Crystal Collection. Inspired by the perfection of these precious gemstones, the Grandeur design team has created an extraordinary new line of crystal knobs that are the ultimate in elegance and luxury.

“Our new Baguette Crystal Knobs are a great way to add some sparkle and glitz,” said Emma Kane, Marketing Director for Grandeur Hardware. “Each knob is cut with multiple facets on each side, creating an interesting sense of dimension and texture, while additional bevels on the top and bottom allow the knob to fit comfortably in the hand. They’re both beautiful and practical, which is rare.”

Available in traditional clear and a stunning shade of amber, the Baguette Crystal knobs can be paired with any of 12 different plates or rosettes, with designs running the gamut from simple to ornate. Customers also have the option of choosing from seven exquisite finishes, including Antique Pewter, Lifetime Brass, Polished Brass, Polished Nickel, Satin Nickel, Timeless Bronze and Vintage Brass. Each knob is crafted from the highest quality forging brass and 24% lead crystal, using time-honored techniques and hand-applied finishes and polishing.

The Baguette Crystal Collection is available at authorized showrooms nationwide and through select online retailers. For more information about this beautiful collection and a listing of dealers, visit www.grandeurhardware.com.
