FOR IMMEDIATE RELEASE:

A MUSE MAKEOVER

ICERA brings a fresh modern look to the Muse II One-Piece Toilet

(Huntington Beach, CA – October 10, 2017) ICERA is pleased to unveil an enhanced version of its popular Muse toilet – introducing the Muse II with a new sleek look featuring clean lines and a sophisticated vibe. Its fashion-forward design is perfect for contemporary luxury bathrooms where style is a priority, while its precision engineering and eco-friendly technology makes the Muse II a smart choice for practical daily living.

Crafted of vitreous china, this one-piece toilet is ideal for compact spaces, with a footprint that is the same as a traditional round toilet but offering the comfort and style of an elongated seat. The Muse II is notable for its Rimless Wash system with large twin jets at the back of the bowl and an open rim that maximizes flushing power. When combined with ICERA's antimicrobial MicroGlaze finish, the Muse II becomes an easy-to-clean toilet that is especially well suited for hard-water and well-water environments.

ICERA continues its water-saving tradition with the Muse II incorporating its trademark EcoQuattro technology, using only 1.28 gpf for high-efficiency performance. The skirted trapway is designed for easy maintenance and installation, and the chair-height bowl is ADA compliant. The Muse II includes a Duroplast Silent Close, Quick-Release seat with a polished chrome tank lever and seat hinge caps. The toilet comes in a white finish and offers a variety of optional hardware finishes, including polished nickel, satin nickel, polished brass and Venetian bronze.

The Muse II is comes with a limited lifetime product warranty backed by a dedicated customer service team. This exceptional toilet retails for \$750 and is available at upscale bath showrooms nationwide.

Rimless Wash system

ABOUT ICERA

For 20 years the American-owned and operated ICERA Group has been dedicated to the innovation and manufacture of premium bath fixtures. Specializing in high-performance water closets and the most technically-challenging of ceramic products, ICERA surpasses industry standards and consumer expectations. With collections ranging from the contemporary to the classic, ICERA products combine uniqueness and elegance in design, best-in-class performance and lasting quality.
