

SMART DESIGN SAVES TIME & MONEY

NEW 9" DEEP APRON FRONT SINKS FROM LENOVA ARE A PERFECT FIT FOR STANDARD CABINETS

(Hillside, IL) Lenova makes it easy and affordable to incorporate big style into the kitchen with its new line of **Drawer-Depth Apron Front Sinks**. Although apron front sinks are often must-have items for consumers who are building or remodeling a home, their oversized proportions frequently require expensive and time-consuming custom cabinets. Lenova offers the perfect solution – a collection of beautiful sinks featuring a dramatic 9" flat front that delivers a bold impact while still compatible with most standard sized cabinetry. By perfectly tailoring their dimensions to those of traditional drawer fronts, Lenova eliminates the need for custom cabinets and helps their customers save both time and money.

As a modern interpretation of a classic look, Lenova's Apron Front Collection brings the past into the present with a series of sophisticated sinks featuring sleek lines and a graceful apron front. The collection includes a double bowl configuration measuring 33" x 21 7/8" x 9" and two single-bowl designs measuring 33" or 30" wide. All have ample room to accommodate the demands of today's busy kitchens, along with thoughtful standard features such as 5-side sound baffling pads and insulation, an easy-to-clean satin finish, and Lenova's superior X Channel drainage technology.

Crafted from durable commercial-grade 304 stainless steel, the Drawer-Depth Apron Front Sinks are a smart and sophisticated addition to any kitchen. Optional features include bottom grids, cutting boards and strainer baskets. The sink line retails from \$895 and is available in fine plumbing showrooms nationwide.
