FOR IMMEDIATE RELEASE:

LENOVA INTRODUCES NEW LINES AT KBIS 2015!

These exciting collections offer stylish options for the eco-conscious and the budget-savvy!

(Hillside, IL. January 1,2, 2015) Lenova is proud to unveil their latest in innovative faucet and sink designs at the 2015 Kitchen/Bath Industry Show in Las Vegas. Known for their ground-breaking and stylish designs, Lenova does not disappoint with this year's debuts at KBIS.

Attendees are certain to take note of their incredible Ozone collection. These amazing faucets feature exclusive water-air patented technology that infuses ozone directly into the water through a patented chamber inside the spout. This process creates ozonized water that is completely safe to drink and makes an extremely effective disinfectant with many applications.

The benefits of ozonized water are nothing short of miraculous! It's been proven to effectively help remove more than 99% of the most common bacteria and pesticide on food, hands and kitchenware (such as Coli golden Staphylococcus, Salmonella, etc.). It also removes agricultural chemicals on vegetables and fruits so they stay fresh, crispy and odorless for a longer shelf life. And because ozone leaves no chemical residue, your rinsing time will be reduced and you will use less water.

Lenova's Ozone faucets use the most powerful oxidizer available, which is three-thousand times more germicidal than chlorine and instantly kills pathogens. There is no chemical storage required. The ozone concentration is under 0.05ppm and meets the standard of the U.S. Food and Drug Administration.

The eye-catching Ozone collection includes six styles of bath or kitchen faucets to choose from, including a Single Lever, Twin Lever, Pull Out, Filtered Water, and an Ozone Sensor style. All are available in a beautiful brushed nickel or polished chrome finish.

EIGHT ELEMENTS OF SINKS
& Stainless Steel Faucets

New Apogee Bath Faucet

Also on display at KBIS will be the NEW Apogee, a collection of budget-friendly sinks and faucets. This versatile line features both traditional and modern styles to suit any décor and offers a full array of kitchen and bath faucets, as well as shower and tub fillers. The Apogee line also includes above-counter and under-mount kitchen and bath sinks that are stylish and won't break the bank. Be among the first to admire this new collection at Lenova's KBIS display in booth N405.

About Lenova

Drawing inspiration from the beauty of nature, Lenova offers a vast array of kitchen and bath sinks; and kitchen faucets in every shape and hue imaginable. Known for its signature "Eight Elements of Sinks," the Lenova sinks collection features a stunning line of sinks crafted from eight varied resources: Stainless Steel, Porcelain, Bamboo, Bronze, Copper, Stone, Glass and Composite. The Lenova kitchen faucet line includes a wide variety of styles to fit the look and the satin polish on the stainless surfaces insures a lifetime of good looks with minimum care. Each sink and faucet are created by master craftsmen and backed by Lenova's "No Worries" customer service philosophy. Lenova is committed to protecting the natural world that inspires its designs through eco-friendly business practices and is proud to offers its customers the finest in affordable luxury sinks.
