GEOMETRIC HARMONY

The Fresh Faucet from MCN fuses flat and round elements.

The new Fresh faucet collection by MCN Faucets combines everything you want in a bath faucet: comfort, convenience and style. This geometric euro-chic faucet design features a refined aesthetic that makes it an instant classic. The flat and curved lines alongside its distinctive minimalist styling lend themselves to modern bath designs. In terms of function, this stunning faucet line offers a widespread bath faucet, a roman tub set, pressure balance, and thermostatic tub and shower systems.

Made in Italy, the Fresh faucet measures 1" in diameter with a spout diameter at 6-5/16" and can easily accommodate a deck thickness of 1/4" to 2" maximum. The symmetrical faucet comes in either a polished chrome and nickel or a brushed nickel finish. Pricing for the Fresh widespread faucet ranges from \$490 to \$590, depending on finish.

With timeless designs in the modern and traditional collections, MCN Faucets are a popular choice for architects, designers and homeowners looking to live Life Without Compromise.
