FOR IMMEDIATE RELEASE

MTI BATHS UNVEILS NEW RESPONSIVE WEBSITE.

Optimum visibility and functionality on all devices.

(Sugar Hill, GA. December 6, 2016) Well-known in the industry for its responsiveness to customer needs, MTI Baths announces the launch of its newly designed state-of-the-art website. Incorporating the latest RWD (Responsive Website Design) technology, all content and features of mtibaths.com are now available on all handheld devices, just as on your laptop or desktop. The genius of this new RWD technology is that the appearance and navigation of the site automatically adjust to the size of the screen of the device, optimizing both graphics and functionality.

The responsive new site is fully compatible with all smart phones and tablets, regardless of size or make. Complete and easy access to all website content and features has become more important as an increasing number of designers and showroom consultants are using mobile devices as they interact with their customers.

“The use of mobile devices has grown dramatically, and MTI Baths’ new website was designed with our customers in mind. It offers a totally mobile-friendly experience, placing full access to our site in the palms of their hands,” said Michael Kornowa, Director of Marketing for MTI Baths.

Visit the new website today from your desktop or mobile device, and see just how responsive MTI is!
