

## BEYOND BASIC BLACK

### *Nostalgic Warehouse introduces versatile Black Porcelain Knobs*

(Denver, CO – May 11, 2017) Black is the ultimate neutral – it goes with everything and always looks fabulous. Nostalgic Warehouse is putting this versatile color on center stage with its Black Porcelain Knobs. With a glossy shine and dark-as-midnight hue, these stunning knobs are dramatic on their own and even more so when paired with a beautifully finished rosette or backplate.

“Our porcelain knobs are inspired by classic designs that were universally popular in the 1800’s and 1900’s and they continue to look great today hundreds of years later,” said Emma Kane Marketing Director for Nostalgic Warehouse. “By offering black as a color option we’re giving our customers a more sophisticated version of a timeless design. Depending on the backplate they select, they can really expand their design possibilities from elegant and traditional to chic and contemporary.”

Measuring 2 ¼" in diameter, the Black Porcelain Knobs are kiln-fired and mounted on a solid-forged brass backplate for exceptional durability and beauty. With 12 different plate and rosette options to choose from, customers have the opportunity to create a custom look to suit their design style. Options include long backplates with vintage-inspired scrolls or Art Deco engravings, traditional rosettes with intricate rope detailing and short backplates with bold, geometric shapes. Further customization is available by choosing one of eight lovely finishes including Antique Brass, Antique Pewter, Bright Chrome, Oil-Rubbed Bronze, Polished Brass, Satin Nickel, Timeless Bronze, and Unlacquered Brass.

As part of the company’s popular Nostalgic Collection™, Black Porcelain Knobs are available at fine hardware retailers throughout the U.S. and Canada and may be purchased online at select websites. For more information about this beautiful collection and a listing of dealers, visit [www.nostalgicwarehouse.com](http://www.nostalgicwarehouse.com).

#### ABOUT NOSTALGIC WAREHOUSE

Founded in 1980 by an antique store owner, Nostalgic Warehouse has grown from a modest proprietorship to a flourishing company. Known for its elegant styles and exceptional craftsmanship, the company is revered by restoration contractors, antique dealers, homeowners, designers, builders and architects who appreciate the uncommon beauty and quality of its product line. Unlike competitors who rely on a cheaper cast or stamped brass, Nostalgic Warehouse uses only hot-forged brass for a solid, durable construction that can accurately display the intricacies of vintage design. Their brass knobs are completely recyclable, and their crystal knobs are made of real, lead crystal, not glass. In keeping with the brand’s vintage roots, they offer customers the option of using historically accurate mortise locks. Nostalgic Warehouse products are designed to last a lifetime.
