## BEAUTIFULLY BRILLIANT.

### *Nostalgic Warehouse Unveils New Collection Of Brightly Hued Crystal Knobs.*

(Denver, CO – February 2017) Nostalgic Warehouse takes crystal door knobs to the next level with a bright infusion of color that lends an unexpected glamor to their heirloom-quality hardware. Brilliant hues of emerald, cobalt, pink and black enhance the already beautiful sparkle of their authentic crystal knobs and add a bit of drama to any décor.

“Everyone loves the elegance of our crystal knobs, so we wanted to offer our customers an opportunity to mix things up a bit,” said Emma Kane, Marketing Director for Nostalgic Warehouse. “The color-infused knobs have a lovely richness and sheen that perfectly complements our matching plates and finishes. It’s a wonderful way to work a pretty pop of color into one’s decorating that is still very traditional and classic.”

The new colorful crystal knobs are available in two of the company’s most popular styles – the Crystal and the Waldorf – and may be mixed and matched with 12 different plates in designs ranging from elaborate scrolls to simple rosettes. The hardware is meticulously crafted from hot-forged brass, providing a strong, durable surface for intricate design work. Further customization options include eight exceptional finishes: Antique Brass, Antique Pewter, Bright Chrome, Oil-Rubbed Bronze, Polished Brass, Satin Nickel, Timeless Bronze or, for a look that will develop its own rich patina over time, Unlacquered Brass.

The Colored Crystal Collection is available at fine hardware retailers throughout the U.S. and Canada and may be purchased online at select websites. For more information about this beautiful collection and a listing of dealers, visit [www.nostalgicwarehouse.com](http://www.nostalgicwarehouse.com).

#### ABOUT NOSTALGIC WAREHOUSE

Founded in 1980 by an antique store owner, Nostalgic Warehouse has grown from a modest proprietorship to a flourishing company. Known for its elegant styles and exceptional craftsmanship, the company is revered by restoration contractors, antique dealers, homeowners, designers, builders and architects who appreciate the uncommon beauty and quality of its product line. Unlike competitors who rely on a cheaper cast or stamped brass, Nostalgic Warehouse uses only hot-forged brass for a solid, durable construction that can accurately display the intricacies of vintage design. Their brass knobs are completely recyclable, and their crystal knobs made of real lead crystal, not glass. In keeping with the brand’s vintage roots, they offer customers the option of using historically accurate mortise locks. Nostalgic Warehouse products are designed to last a lifetime.
