### ABOUT NOSTALGIC WAREHOUSE

Founded in 1980 by an antique store owner, Nostalgic Warehouse has grown from a modest proprietorship to a flourishing company. Known for its elegant styles and exceptional craftsmanship, the company is revered by restoration contractors, antique dealers, homeowners, designers, builders and architects who appreciate the uncommon beauty and quality of its product line. Unlike competitors who rely on a cheaper cast or stamped brass, Nostalgic Warehouse uses only hot-forged brass for a solid, durable construction that can accurately display the intricacies of vintage design. Their brass knobs are completely recyclable, and their crystal knobs are made of real, lead crystal, not glass. In keeping with the brand's vintage roots, they offer customers the option of using historically accurate mortise locks. Nostalgic Warehouse products are designed to last a lifetime.
