(Frisco, CO. July 19, 2013) Each year thousands of architects set out on an expedition to attend The American Institute of Architects Expo. The aisles of the Denver Convention Center overflowed with principals, partners and top level associates. All of them exploring booth after booth looking for that unique product, that treasure, which would set their project apart from others.

Many of these professionals found themselves at the Quick Drain USA booth. "This was a great show for us! Since we are manufactured here, we didn't have to travel that far", said Jim Van Landingham, VP Residential Division. Van Landingham and Quick Drain's VP Commercial Division, Jeff Kelley, educated each booth visitor on the tremendous advantages and differences between Quick Drain and other brands.

Speaking about attendee feedback, Van Landingham said, "Architects loved to hear that Quick Drain can be installed at the threshold of a curbless shower without dropping the sub-floor. Combine that with a 2 to 4 hour install, instead of 3 days along with the long list of other benefits and we had some very excited architects!"

Quick Drain offers 6 choices of strainer patterns: dots, horizontal, vertical, waves, diagonal and the tile-in (hidden drain). All strainers are made of 18-gauge 304 stainless steel and the Quick Drain Strainer is the slimmest in the industry at a width of just 1.5". Custom drains can also be made for any size in any situation up to 100 feet long and customized into multiple drain outlets for high-flow capacity. Ideal for residential, hospitality or commercial spaces, all drains are ADA approved, easy to install and quickly update any shower.

#### **About Quick Drain USA**

Quick Drain USA is a premier manufacturer of stainless steel, low profile channel drainage systems for showers and wet areas. The company is providing drain solutions to high-end hotel chains, large metropolitan hospitals and everyday homeowners who are looking for a universal drainage system with beauty, function and affordability rolled into one easy-to-install product. All of the company's products are designed to meet Uniform Plumbing Code and International Plumbing Code standards and approvals.

More than a drain...a solution! For more information on Quick Drain USA, America's leader in channel drains call toll-free 866-998-6685 or visit [www.quickdrainusa.com](http://www.quickdrainusa.com).
