(Frisco, CO. December 20, 2013) Quick Drain USA, the premier manufacturer of stainless steel, low profile channel drain systems and world renowned architect and designer Michael Graves are proud to announce their new partnership. By combining the whimsical aesthetic of Graves' designs and the innovation of Quick Drain, the new collection is sure to capture the imagination of the bath design industry.

Quick Drain was honored to collaborate with such a respected designer as Graves who shares their passion for universal design. Identified as one of The New York Five, Graves is known first for his contemporary building designs and some prominent public commissions. He has designed the Disney headquarters in Burbank, California along with dozens of others and his consumer goods have been offered by Alessi, Target stores and JC Penney.

The new Michael Graves designed line features "Stream", a fluid design that will make a lasting impression and "Cosmo" an unmistakable contemporary style that commands attention. Both will be available in brushed and polished stainless steel and a new oil rubbed bronze finish. Crafted of 18-gauge 304 stainless steel, they will be offered in the standard lengths as well as custom up to 100". Ideal for residential, hospitality or commercial spaces, all drains are ADA approved and easy to install.

Quick Drain USA will showcase the new collection at the 2014 KBIS/International Builders' Show in Las Vegas, Nevada on February 4-6, 2014 in Booth S1553. The Michael Graves Collection by Quick Drain USA will be available through Quick Drain USA's network of exclusive dealers nationwide.

About Michael Graves

Michael Graves Design Group (MGDG) has been in the forefront of product design for over 25 years. MGDG has designed and brought to market over 2,000 products and have received over 200 awards for design excellence.

About Quick Drain USA

Quick Drain USA is a premier manufacturer of stainless steel, low profile channel drainage systems for showers and wet areas. The company is providing drain solutions to high-end hotel chains, large metropolitan hospitals and everyday homeowners who are looking for a universal drainage system with beauty, function and affordability rolled into one easy-to-install product. All of the company's products are designed to meet Uniform Plumbing Code and International Plumbing Code standards and approvals.
