

WALLDRAIN WINS BEST OF YEAR!

QuickDrain USA's Innovative WallDrain Wins 2015 Best of Year Award From Interior Design Magazine!

(Frisco, CO. December 9, 2015) QuickDrain USA, the premier manufacturer of stainless steel, low profile channel drain systems, is pleased to announce their win of a prestigious Best of Year Award from Interior Design magazine.

This year, the Best of Year Awards celebrated its 10th Anniversary and had over 1,800 entries in 142 categories with nearly 60,000 votes cast by the A+D industry. On December 3, 2015 almost 1,000 people from the design community (designers and manufacturers) gathered at the state-of-the-art Frank Gehry design, IAC Building, as the winners were announced live by hosts Cindy Allen, Editor in Chief, and Carol Cisco, Publisher.

The first American-made, award-winning WallDrain features a 316L stainless steel body with the company's patented Sure Flow System™ that leaves no standing water in the drain body. QuickDrain USA is the only linear drain manufacturer to engineer a sloped trough designed to remove all the water and debris from the trough after each use. This patented shower pan system can be installed in hours, not days like a

traditional drain or other linear drains brands.

WallDrain comes in three standard sizes (48", 72" and 96") and include trough extensions for an exact fit. The drain cover can be perfectly adjusted to the thickness of the wall's ceramic tile or stone covering, resulting in a seamless appearance that allows complete design flexibility. Ideal for hospitality, residential or commercial applications, WallDrain is ADA approved and easy to install.

About QuickDrain USA

QuickDrain USA is a premier manufacturer of stainless steel and PVC low profile channel drainage systems for showers and wet areas. The company is providing drain solutions to high-end hotel chains, large metropolitan hospitals and everyday homeowners who are looking for a universal drainage system with beauty, function and affordability rolled into one easy-to-install product.
