

FORM + FUNCTION

New Maestro Pull-Out Spray Faucet is a Practical Show-Stopper in the Kitchen.

Your kitchen sink never looked so good as when paired with this gorgeous new faucet from Ruvati's Maestro Collection. Finished in shimmering stainless steel, the graceful high arched spout grabs attention with its striking looks, while its flexible pull-out design and 360-degree swivel makes it incredibly functional in the busiest of kitchens. A contemporary lever-style handle is in keeping with the faucet's sleek lines and simple silhouette making the Maestro an ideal choice for modern kitchens with a minimalist look.

As part of Ruvati's premium line of faucets, the Maestro Collection was inspired by the beauty and power of the famous Nardis Waterfall, a glacier-fed waterfall high in the Italian Alps. Like its muse, the Maestro faucet generates a rush of crystal-clear water and its curves mirror the dramatic yet subtle curves of the edge of the falls. The faucet offers a solid brass construction for exceptional durability and is individually tested and inspected to ensure the highest quality. As with all Ruvati faucets, it features a splash-free aerated stream, a drip-free Kerox™ ceramic disc cartridge, and comes with a limited lifetime warranty.

Known as the RVF1225BN, this pull-out spray kitchen faucet may be installed in countertops up to 2" thick with one- or three-hole installation options. The faucet measures 20.47" high with a spout height of 8.07". The faucet is both Lead-Free Compliant and ADA Compliant and includes hot and cold water connection lines and matching deckplate.
