

THE GREAT DIVIDE

New Perfect Divide sink from Ruvati offers exceptional versatility.

Ruvati finds common ground in the great single-vs-double bowl sink debate with its new Perfect Divide (model RHV8059) kitchen sink. Proponents of the single bowl kitchen sink love its easy maintenance and roomy dimensions that can handle large pots and pans with ease, while double bowl fans enjoy its versatility and water-saving design. Now consumers can have the best of both worlds!

The Ruvati design team solved this ongoing dilemma with innovative engineering. The solution is a double bowl sink with a low and wide platform as a divider. Because the divide is low, it brings a sense of spaciousness and ease to the sink, but it still performs as a double bowl when the need arises. The divider itself is lightly textured and gives an extra layer of utility to the sink, creating the perfect no-slip platform to place your pasta pot while

filling with water. The overall look of the sink is sleek and modern, with a streamlined design that is visually appealing and has the capacity to handle the vigorous demands of today's busy kitchens.

Available as part of Ruvati's popular Tirana Collection, the RHV8059 is constructed of 16 gauge stainless steel with heavy duty soundguard padding and undercoating to provide thermal insulation and muffle the clinking of cutlery and dishes. Rear drain placements ensure dishes left in the sink do not rest on the drain and prevent water flow, while a slanted bottom and drain grooves channel water towards the drain, keeping the sink clean and dry. This exceptional sink is generously sized, measuring 33" x 22" with a 10" bowl depth. A luxurious artisan grade satin finish adds beauty and durability, and zero radius sharp inside corners give a resolutely modern look.
