VICTORIA + ALBERT'S LESLIE DELLI-VENNERI EARNS WELL ACCREDITED PROFESSIONAL (WELL AP) CREDENTIAL

(North Charleston, SC – December 14, 2017) Victoria + Albert Baths is proud to announce that Leslie Delli-Venneri, Business Development Manager West, has earned the WELL Accredited Professional (WELL AP™) credential through the International WELL Building Institute™ (IWBI™), placing her among a group of leading professionals who are dedicated to supporting human health and well-being in the built environment.

The WELL AP credential is the new, leading credential signifying advanced knowledge of health and well-being in the built environment and specialization in the WELL Building Standard™ (WELL).

WELL APs have successfully passed the WELL AP exam, an assessment based on the expertise of leading practitioners in the field of design, health and wellness in the built environment. Developed using GBCI's rigorous test development best practices, the WELL AP exam is designed to test a candidate's knowledge and proficiency in building wellness and the principles, practices and applications of the WELL Building Standard. The WELL AP Exam was launched last October and was complemented by a comprehensive educational program.

"I'm looking forward to using my WELL Standard knowledge to help create better living environments. Both ASID and AIA have adopted Well, and as Victoria + Albert enjoys close relationships with both industry bodies, we see this as a great benefit to our customers. The next CEU course offered by Victoria + Albert will be about Wellness and the Well Standard. Whilst the standard hasn't yet been rolled out across homes, there are a lot of concepts that would be great for any project." Leslie Delli-Venneri, Business Development Manager West.

About The WELL Building Standard

The WELL Building Standard is the first building standard to focus exclusively on the health and wellness of the people in buildings. WELL is an evidence and performance-based system for measuring, certifying and monitoring features that impact human health and well-being in the built environment, through air, water, nourishment, light, fitness, comfort and mind.

To learn more about Victoria + Albert Baths' commitment to health and wellness in the built environment, visit vandabaths.com. The WELL Building Standard and more information on the WELL AP is available at www.wellcertified.com.

About Victoria + Albert

For over 20 years, global brand Victoria + Albert has achieved a worldwide reputation for creating beautiful baths, basins, furniture and faucets. The ultimate statement in quality and sophisticated style, their award-winning collections are packed with inspirational designs made from 100% ENGLISHCAST®, a unique blend of Volcanic Limestone™ and high performance resins. Naturally white, each tub is individually hand-finished by craftsmen and tested by IAPMO to UPC and cUPC standards with a 25-year limited consumer warranty.

Recipients of the prestigious RED DOT Award for their Amiata tub along with a Chicago Athenaeum GOOD DESIGN Award for their Pescadero, Napoli and ionian tubs, Victoria + Albert raises the bar on exceptional product design. Adored by consumers across the globe, and featured in distinguished five-star hospitality projects, Victoria + Albert sets the trend in bathing. The company is an avid supporter of the architectural and design community and sponsor of continuing education courses throughout North America.
