DECIDEDLY MODERN.

Victoria + Albert's new Vetralla tub fuses symmetry with compact design.

(Ladson, SC – July 21, 2017) The latest introduction from luxury British brand Victoria + Albert Baths is a double-ended tub that combines the clean lines of a modern aesthetic with a smaller footprint. The Vetralla, available in two sizes, was designed with comfort in mind; it features a relaxed angle of recline, making it the perfect tub to enjoy a luxurious soak.

The simple, deep and double-ended Vetralla bathtub is ideal for modern bathrooms where space is at a premium – a common concern for city apartments. Vetralla measures a compact 58 ¾" x 29 1/8" x 22", making it the smallest bathtub in Victoria + Albert's range. Vetralla 2 measures a more generous 65" x 28 ¾" x 21 5/8", perfect for family bathrooms. The Vetralla Collection is available in seven distinctive external finishes, including Gloss White, Gloss black, Matte White, Matte Black, Anthracite, Stone Gray and Light Gray.

As with all Victoria + Albert's baths, it is made using the brand's exclusive material, ENGLISHCAST®; a unique blend of Volcanic Limestone™ and high performance resins with a number of beneficial properties. Warm to the touch – ensuring you never step foot into a cool bath while also retaining heat for longer – it is luxuriously smooth, wipe clean, scratch-resistant, super-strong and lightweight, with each bath weighing far less than their cast iron or acrylic counterparts. So confident is Victoria + Albert with its material, each bath comes with a 25-year consumer and 8 year commercial guarantee.

About Victoria + Albert

Victoria + Albert is a global brand with a worldwide reputation for creating beautiful baths. The ultimate statement in quality and sophisticated style, their award-winning collections are packed with inspirational designs made from 100% ENGLISHCAST®, a unique blend of Volcanic Limestone™ and high performance resins.
